This being the first day of the Second Session of the Thirty-seventh Parliament convoked by Proclamation of the Lieutenant Governor for the despatch of business, and the members of the House having assembled:-

Her Honour the Lieutenant Governor entered the Legislative Chamber and, having taken her seat on the Throne, was pleased to open the Session by reading the following gracious speech:

Members of the Legislative Assembly, citizens of Ontario:

Welcome to the 2nd Session of Ontario's 37th Parliament.

Today, on Yom HaShoah, we pause to remember victims of the Holocaust. We join citizens around the world in pledging, "Never again."

Since the Assembly last met, Ontario has lost three distinguished public servants.

Ellen MacKinnon, the first female legislator from Lambton County, cared deeply about our education system and devoted herself to building a better society.

Wilf Spooner was an accomplished cabinet minister whose commitment to the people of the North, including residents of his hometown, Timmins, earned him the nickname "Mr. Northern Ontario."

The sudden loss of Al Palladini reminded us how fragile human life is. We remember his sense of humour, love of life, compassion for others and desire to give back to a country that gave him so much. He will be missed.

Those who have gone before provide the inspiration to move forward and build a brighter future for all.

Since 1995, your government's plan to improve the lives of Ontario families has been consistent and clear. The plan is to strengthen the economy by cutting taxes, reducing red tape and eliminating barriers to economic growth.

Your government's goal is ambitious, yet achievable: that within 10 years Ontario will enjoy the best-performing economy and the highest quality of life in North America.

Economic strength and quality of life are inseparable. Only a strong economy provides the means to support important services such as accessible health care and quality education. Only a strong economy supports assistance for children, the elderly and the most vulnerable in our society. Only a strong economy offers hard-working families the promise of a better life.

The plan is working. The people of Ontario have seized new opportunities, yielding remarkable results: More than 822,000 new jobs. More than 578,000 people escaped welfare.

In the last two years, Ontario's economy outperformed that of each G-7 nation ... growth unseen since 1985.

The successes of yesterday do not, however, obscure the challenges of today.

Ontario faces real and pressing tests. The world economy is changing at a rapid pace. Local economies that fail to adapt or cannot compete will be left behind.

Responsible choices must be made if our province is to remain competitive and strong.

Amid global uncertainty and change, the provincial economy continues to grow, but slowly.

Responsible choices are required to keep the economy growing, and to determine spending priorities among competing demands that in total would far exceed the growth in revenue.

Health care spending has increased at a dramatic pace: 27 per cent in five years, 19 per cent in the past two years alone. Yet spending does not equate to quality. Is Ontario's health care system 19 per cent better than two years ago? The United States and Canada lead the world in health spending; do they lead the world in health care?

To increase spending without improving quality is unwise. To increase spending unsupported by economic growth is unsustainable. In recent years, even as Ontario's "red hot" economy grew at an historic pace, health spending grew faster. At the current rate of increase, within five years health spending would consume 60 per cent of the Ontario government's operating budget — up from 44 per cent today and 38 per cent since the government was first elected.

Other provinces face the same challenges. In Saskatchewan, government health care spending is projected to increase faster than government revenue, leading to a gap of \$300 million at the end of four years. In Nova Scotia, within 10 years, rising health costs could consume the entire provincial government budget.

Responsible choices and tough decisions are needed not merely to sustain, but quite literally to save, Canada's health care system.

To meet all the challenges of the 21st century, your government has chosen to focus on three priorities:

Growth;
Fiscal Responsibility; and
Accountability.

Growth — growth in the economy, growth in jobs — remains your government's top priority. It will act with speed and conviction, pursuing a pro-growth agenda that will protect jobs, keep families financially secure and maintain the strength of all communities.

Sustained growth is essential to protect the gains that have been made. Sustained growth is essential to continued support for health care, education and other services that people depend on.

Fiscal responsibility begins with the prudent use of tax dollars — a focus on priorities such as health care, education, environmental protection and infrastructure.

Fiscal responsibility requires that everything government does, it does efficiently, while offering citizens best value at lowest cost. Yet it also demands that government make clear choices about what it cannot and should not do. The principle of "doing better for less" is important, but it only applies to functions government should perform in the first place.

Accountability is required, not just of Ontario's government, but of all governments and indeed of all institutions funded by taxpayers.

Government is the servant of the people, not master. Citizens are more than "customers" or "clients"; the entire public sector belongs to them. Citizens are entitled to transparency in the operation of public institutions, including openness about how they spend and reporting of their performance and results.

Growth, fiscal responsibility and accountability: These priorities underlie an action plan outlining the new ideas and decisive steps essential to protect the economy and sustain Ontario's quality of life. An action plan of 21 steps leading into the 21st century.

The first part of the action plan is presented in this speech. The remainder will be outlined in a series of daily announcements, culminating in the provincial budget, May 9.

The steps of the plan are clear and measurable, allowing citizens to hold their government accountable for its commitments. The government will provide regular progress reports to the people and the legislature.

- A new task force will measure and monitor Ontario's productivity, competitiveness and economic progress compared to other provinces and the U.S. states. The independent task force, led by Roger Martin, Dean of the Joseph L. Rotman School of Management and one of Canada's leading experts on competitiveness, will report to the public on a regular basis.

Step 1: Removing Barriers to Jobs, Investment and Growth

Ontario must remain competitive with the rest of the world. Taxes must be competitive. The regulatory climate must be conducive to investment and job creation.

Barriers to economic growth threaten jobs, the standard of living and opportunities for future generations. Removing them is the first step of the plan.

To remove barriers to jobs, investment and growth your government will:

- Honour its tax-cut pledge.
- Apply a new business impact test to proposed policies and regulations that might adversely affect competitiveness or jobs.
- Open the electricity market to help meet the province's long-term electricity needs, while ensuring a safe, reliable and affordable supply of power. Monopolies do not operate in the best interest of taxpayers. Open, competitive markets are more efficient and fair, they help keep costs low for consumers over the long-term and they encourage innovation.

Additional measures to help remove barriers to jobs, growth and investment will be announced April 23.

Step 2: Paying Down Debt

The second step of the plan is to pay down the province's accumulated debt. The budget will outline the next steps.

Step 3: Smaller Government

The third step is renewed efforts to reduce the size and scope of government.

- The government will sell businesses it should not operate and assets it should not own. The first in a series of privatizations will be announced in the budget.
- Proposed legislation would mandate "sunset clauses" for new programs.
- The government will apply the zero-based budgeting principle to ministries and agencies.
- It will ensure that taxpayers' dollars intended for programs to help people are not diverted to lobbying and advocacy.
- The government will strike a panel to make recommendations on the appropriate role of government in the 21st century: what its businesses should and shouldn't be; where it belongs and where it does not.

Step 4: More Efficient Government

Step 4 is to streamline government and make it more efficient.

Step 5: Improved Customer Service and E-Government

Step 5 is continued improvement in customer service and expansion of electronic government.

Details of these two steps will be announced April 23.

Remember, though, that efficiency and alternative service delivery are inadequate responses in areas where the government does not belong. Functions that government has no business providing should be eliminated.

Step 6: Preparing for the New Economy

Preparing for the new economy is the sixth step. Your government will make Ontario the preferred jurisdiction for those seeking to do business in the digital economy.

- It will introduce broad privacy legislation that protects individuals and propels Ontario to the forefront of the information economy.
- The government will introduce modern consumer protection laws that make Ontario a trusted destination for electronic consumer spending.

Step 7: Promoting Growth Among All Regions and Industries

Some regions, including many rural communities, have not shared equally in recent growth and prosperity. A new approach and fresh ideas are needed.

Step 7 of the plan is to support economic growth in rural Ontario, the North and other regions of the province, and to encourage the growth of industries of special regional significance.

On May 7, the government will present its detailed plan for regional economic development.

Step 8: Holding the Broad Public Sector Accountable to Taxpayers

The broad public sector, including all levels of government, consumes 37.7 per cent of the province's gross domestic product.

As step 8 of its plan, your government will introduce sweeping reforms to ensure that all public sector institutions are accountable to the citizens of Ontario.

- Proposed amendments to the *Audit Act* would empower the Provincial Auditor to ensure that institutions funded by Ontario taxpayers use that money prudently, effectively and as intended.
- Legislation to cancel the OHIP billing numbers of providers convicted of health fraud will be introduced.
- Running deficits is not sustainable and not acceptable. Your government, municipalities and school boards are now prohibited from running deficits. The budget will introduce measures that would require the entire public sector, including hospitals, to act in a fiscally responsible manner.

Further accountability reforms will be announced April 30.

Step 9: Smart Growth

As Ontario's population and industries continue to grow, so will pressures on infrastructure.

"Smart Growth" is a vision that promotes and manages growth to sustain a strong economy, strong communities and a healthy environment.

The ninth step in the plan, Smart Growth, will help reduce gridlock, encourage the revitalization of abandoned or contaminated land and promote economic growth.

Details will be announced April 25.

Since 1995, the government has established provincial standards across the broad public sector. These changes were necessary to increase efficiency and accountability and to improve quality, but they should not result in expanded central bureaucracy or the imposition of "one size fits all" solutions.

While economies of scale and common accountability standards promote excellence and efficiency, so do innovation, competition, flexibility and choice. All must coexist. Provincial standards should not eliminate local responsibility. Queen's Park can lead without centralized micromanagement and control.

Step 10: Flexibility and Choice in Education

For example, 4,746 schools and 74,895 classrooms cannot be run from the Ministry of Education. Excellence among teachers, leadership by principals and the influence of parents make the difference.

Step 10 of the plan is to give parents, principals and teachers the flexibility and choice to do what is best for students.

- Proposed legislation would allow parents more choice to enrol their children in any available school within their system.
- Circular 14, the list of ministry-approved learning materials, will be replaced with provincial guidelines that permit local flexibility. For example, principals may choose to use phonics texts to teach reading.
- School boards will be encouraged to reward high-performing teachers and principals.

Step 11: High Education Standards and Performance-Based Accountability

The government's role should be to lead and set standards. A rigorous curriculum, clear report cards and standardized testing were only the start.

Step 11 is for your government to continue setting standards of excellence for schools, with an emphasis on performance-based accountability. Only performance measurement and the reporting of results will equip parents and students to make informed choices.

- The government will act to ensure that all students in Ontario have the benefit of co-instructional activities.

Step 12: Giving Our Children the Best Start in Life

Step 12 of the plan is to support parents and ensure children get the best possible start in life. The "Healthy Babies, Healthy Children" initiative laid a necessary foundation. The Mustard-McCain report on early learning painted a bold vision.

- Building on these initiatives, the government will establish a system of local "early years" centres, accessible to all children and families.

Step 13: Post-Secondary Access for Each Qualified Student

The government will continue to ensure that every willing and qualified Ontario student secures a place in a post-secondary education program — step 13 of the plan.

Step 14: Ensuring a Skilled Workforce

Step 14 is to address skills shortages — including among the trades — and ensure that Ontario boasts the skilled workforce necessary to attract investment and jobs.

- The government intends to establish an innovative new post-secondary institution that would link education and skills training with the needs of the marketplace. Details will be announced in the budget.

Details of the government's commitment to children, education and training will be announced April 26.

Step 15: National Leadership in Health Care Reform

Your government wants to ensure that all people have access to quality health care, where and when they need it.

It will increase health care spending for the sixth consecutive year. Once again, this year, spending will rise faster than the economy grows.

However, double-digit increases in health spending are no longer sustainable.

In the absence of fundamental reform, increased funding is no answer to the national crisis facing the health care system.

To quote from the recent report of Saskatchewan's Commission on Medicare:

“[P]ouring more money into a system with known inefficiencies will not improve it... More money for an often poorly functioning health care system often means less money for education, job creation, and tax relief, all things that can contribute to improving the health of the people of Saskatchewan. Thus, spending more on the current health care system without addressing its underlying problems would be irresponsible.”

Caring for Medicare: Sustaining a Quality System

The Ontario government believes fundamental reform is necessary to save the nation's health care system. Your government is prepared to lead the process of change. This is step 15 of its plan.

- It wants an open, national discussion on the future of health care. The federal Commission on the Future of Health Care in Canada must be free to consider all aspects of the system and to explore all possible solutions. It should not be limited by a narrow mandate or by restrictions on discussion. Ontario wants to take part in a dialogue that is broad enough to identify real, lasting solutions to the sustainability crisis.
- Among other things, this national dialogue should examine how medicare should be funded by the federal and provincial governments, having regard to historic contributions, the original 50-50 principle of medicare, and the tax base available to each level of government. The goal should be a full partnership, with each level of government contributing a realistic and fair share of health care costs.
- However, the federal commission will not report until November 2002. That is far too long to wait before acting to save medicare. On an urgent basis, the Ontario government will ask patients, nurses, doctors, hospital administrators and others with an interest in the future of the health system to identify needed reforms and to seek consensus on the best way to allocate the billions of dollars spent annually on health care.
- In addition, as health care costs are projected to grow significantly everywhere, a federal-provincial agreement on funding the annual increases in health care costs cannot wait until November 2002.

Step 16: Improving Health Services

At the same time it addresses the sustainability question, the government will accelerate reforms to improve the quality of Ontario's health care system — step 16 of its plan.

More details of the government's health care plan will be announced April 24.

Step 17: Protecting Environmental Health and Safety

By preserving Ontario's rugged beauty and protecting its rich natural resources, your government will help ensure that future generations inherit a clean, healthy province.

Step 17 is action to protect environmental health and safety. Here the government will be guided by the *Managing the Environment* report.

Details will be announced May 2.

Step 18: Helping People Off Welfare and Into Jobs

On May 3, the government will announce details of step 18, which is to help people get off welfare and into jobs.

Step 19: Enhancing Community Safety and Victims' Rights

Ontario is blessed with many safe communities where children play, neighbours watch out for one another and people work together to solve problems.

Step 19 of the plan is the introduction of further measures to enhance victims' rights and keep streets and communities safe from crime.

Details will be released May 1.

Step 20: Equal Opportunity for All Citizens

Ontario is a diverse province. Not only is diversity cause for celebration, it offers a significant economic advantage.

Some in the community face special barriers, including those who live with physical or mental disabilities. Ensuring equal opportunity for all is the 20th step of the plan.

- The government will seek common ground and shared solutions to address the needs of persons with disabilities, and take action, including the introduction of legislation, to build on its commitment.

Step 21: Parliamentary Reform

The 21st century demands that Ontario's democratic processes be modern and responsive.

The 21st step of the plan is support for parliamentary reform, particularly changes that enhance the role and responsibilities of MPPs.

- The government will propose that more issues, particularly those requiring in-depth examination and considered recommendations, be referred to legislative committees.
- The government continues to view only votes on the budget and identified confidence questions as matters of confidence, and encourages other parties to do the same.
- It wants to restore the importance of the process by which MPPs hold the government accountable through review and approval of its spending estimates. To this end, the government will not view the reduction or rejection of any line item in a ministry's estimates as a matter of confidence.
- It will propose that the Standing Committee on the Legislative Assembly explore other parliamentary reforms that would enhance the role of private members and expand the use of technology.

Conclusion

Today's commitments launch the action plan of 21 steps into the 21st century. Starting Monday, ministers will announce further details of these 21 steps.

Ontario extends far beyond Toronto. The business of this province takes place in every community, not just at Queen's Park.

Next week, the Premier will travel to each region of the province. He will speak to local residents, meet with community leaders and share details of this pro-growth, fiscally responsible, accountability-based action plan.

Members of the Legislative Assembly and citizens of Ontario:

The task ahead is not easy, but through courage and foresight and determination, Ontario shall continue to make progress. This province can establish the strongest economy and achieve the highest quality of life in North America.

May God continue to bless Ontario and Canada.

May God guide all in public office, that they may use power wisely and well.

God save the Queen.

Mesdames et Messieurs les membres de l'Assemblée législative, concitoyennes et concitoyens,

Je vous souhaite la bienvenue à la deuxième session de la 37^e Législature de l'Ontario.

En ce jour de la Shoah, nous avons une pensée toute particulière pour les victimes de l'Holocauste. À l'instar d'une foule de personnes dans le monde entier, nous déclarons « Jamais plus ».

Depuis sa dernière séance, l'Assemblée législative a perdu trois de ses membres les plus estimés.

Ellen MacKinnon, première femme députée du comté de Lambton, a toujours pris notre système d'éducation à coeur et s'était vouée à l'édification d'une société meilleure.

De son côté, Wilf Spooner, qui s'est illustré au Conseil des ministres, a fait preuve d'un tel engagement vis-à-vis de la population du Nord et notamment des habitants de sa ville natale, Timmins, qu'on l'avait surnommé « Monsieur Nord ».

La brusque disparition d'Al Palladini est par ailleurs venue nous rappeler à quel point la vie humaine est précaire. Nous nous souviendrons longtemps de son sens de l'humour, de son culte de la vie, de sa compassion pour autrui et de son désir de rendre le plus possible à un pays qui lui avait tant apporté. Il laisse un grand vide.

Ceux et celles qui nous ont précédés nous incitent à aller de l'avant et à bâtir un avenir plus prospère pour l'ensemble de la société.

Le plan d'action mis en oeuvre par votre gouvernement depuis 1995 pour améliorer le niveau de vie des familles ontariennes est clair et cohérent. Il a pour but de renforcer l'économie en abaissant les impôts, en réduisant les formalités administratives et en levant les obstacles à la croissance économique.

Ce plan est ambitieux, mais réalisable : d'ici 10 ans, l'Ontario devrait afficher la performance économique la plus vigoureuse et la qualité de vie la meilleure en Amérique du Nord.

Dynamisme économique et qualité de vie vont de pair. Seule une économie robuste nous donne les moyens de dispenser des services importants, par exemple un enseignement de qualité et des services de santé accessibles. Seule une économie robuste permet de fournir une aide aux enfants, aux aînés ainsi qu'aux personnes les plus vulnérables de notre société. Seule une économie robuste offre aux familles laborieuses la perspective d'une vie plus facile.

Notre plan porte fruit. La population de l'Ontario a mis à profit de nouvelles possibilités, ce qui a donné des résultats remarquables : plus de 822 000 nouveaux emplois et plus de 578 000 personnes libérées de l'aide sociale.

Ces deux dernières années, l'économie ontarienne a surpassé celle de chacun des pays du G-7, du jamais vu depuis 1985.

Les réussites d'hier ne doivent cependant pas masquer les défis d'aujourd'hui.

L'Ontario fait face à des problèmes réels et pressants. L'économie mondiale se transforme rapidement. Les économies locales qui ne savent pas s'adapter ou qui sont incapables de soutenir la concurrence resteront à la traîne.

Des choix responsables s'imposent pour que notre province demeure dynamique et compétitive.

En cette période d'incertitude et de changement à l'échelle planétaire, l'économie provinciale poursuit sa croissance, mais à un rythme plus lent.

Des choix responsables sont nécessaires pour préserver la croissance de l'économie et pour établir des priorités parmi des exigences contradictoires dont la satisfaction entraînerait des coûts largement supérieurs à l'augmentation des recettes.

Dans le secteur de la santé, la hausse des dépenses a été spectaculaire : 27 pour 100 en cinq ans et 19 pour 100 ces deux dernières années. Pourtant, il ne suffit pas de dépenser pour assurer la qualité. Celle

du système de santé de l'Ontario s'est-elle accrue de 19 pour 100 depuis deux ans? Les États-Unis et le Canada surpassent tous les autres pays pour ce qui est des fonds affectés à la santé; sont-ils pour autant les leaders mondiaux au chapitre des services de santé?

Accroître les dépenses sans améliorer la qualité n'est certes pas souhaitable. Par ailleurs, une augmentation des dépenses non financée par la croissance économique n'est pas viable. Or, ces dernières années, même lorsque l'économie ontarienne, chauffée à blanc, connaissait une croissance sans précédent, les dépenses de santé ont augmenté encore plus rapidement. Au rythme actuel, on prévoit que d'ici cinq ans l'enveloppe de la santé représentera 60 pour 100 du budget de fonctionnement du gouvernement de l'Ontario – contre 44 pour 100 aujourd'hui et 38 pour 100 depuis l'arrivée au pouvoir du gouvernement.

D'autres provinces font face au même problème. En Saskatchewan, on prévoit que les sommes consacrées à la santé augmenteront plus rapidement que les recettes du gouvernement, ce qui se soldera par un déficit de 300 millions de dollars au bout de quatre ans. En Nouvelle-Écosse, les coûts croissants des services de santé pourraient absorber, en l'espace de 10 ans, tout le budget provincial.

Des décisions difficiles et des choix responsables s'imposent, non seulement pour maintenir le système de santé canadien, mais littéralement pour le sauver.

Afin de relever tous les défis que pose le XXI^e siècle, votre gouvernement a défini trois priorités :

- croissance;
- responsabilité financière;
- reddition de comptes.

La croissance – croissance de l'économie et croissance de l'emploi – demeure la priorité absolue de votre gouvernement. C'est avec ardeur et conviction que ce dernier a mis en oeuvre un programme de croissance et travaille à protéger l'emploi, à préserver la sécurité financière des familles et à maintenir la vitalité de toutes les collectivités.

Une croissance soutenue est essentielle si nous voulons conserver nos acquis et continuer à dispenser l'enseignement, les soins de santé et les autres services sur lesquels compte la population.

La responsabilité financière commence par une utilisation prudente de l'argent des contribuables – en donnant la priorité à la santé, à l'éducation, à la protection de l'environnement et à l'infrastructure.

La responsabilité financière exige que le gouvernement fasse preuve d'efficacité dans toutes ses activités, afin que les contribuables en aient pour leur argent. Il faut aussi que le gouvernement définisse clairement ce qu'il ne peut pas et ce qu'il ne doit pas faire. « Faire mieux avec moins » est un principe important, mais il s'applique uniquement aux fonctions qui incombent d'office au gouvernement.

La reddition de comptes est nécessaire, non seulement de la part du gouvernement de l'Ontario mais aussi de tous les paliers de gouvernement et, à vrai dire, de toutes les institutions financées par les contribuables.

Le gouvernement est au service de la population, et non l'inverse. Les citoyennes et citoyens ne sont pas seulement des « clients »; le secteur public tout entier leur appartient. La population a droit à la transparence quant au fonctionnement des institutions publiques, notamment en ce qui concerne l'affectation des dépenses et les rapports sur la performance et les résultats.

Croissance, responsabilité financière et reddition de comptes : ces priorités sous-tendent un plan d'action définissant les nouvelles idées et les étapes décisives qui sont essentielles pour la protection de l'économie et le maintien de la qualité de vie en Ontario. Ce plan d'action compte 21 objectifs, qui sont autant de clés pour le XXI^e siècle.

Le premier volet du plan d'action est énoncé dans le présent discours. Les autres seront exposés au fil d'une série de communiqués quotidiens, dont le point culminant sera le discours du budget de la province, le 9 mai.

Les objectifs du plan sont clairs et mesurables, ce qui permettra à la population de tenir son gouvernement responsable de ses engagements. Le gouvernement présentera régulièrement des rapports d'étape à la population et à l'Assemblée législative.

- Un nouveau groupe d'étude procédera à la mesure et au suivi de la productivité de l'Ontario, de sa compétitivité et de son progrès économique par rapport aux autres provinces et aux divers États américains. Ce groupe d'étude indépendant, qui sera dirigé par Roger Martin, doyen de la Joseph L. Rotman School of Management et l'un des grands spécialistes canadiens de la compétitivité, présentera des rapports réguliers au public.

Objectif 1: Éliminer les obstacles à l'emploi, à l'investissement et à la croissance

L'Ontario doit préserver sa compétitivité à l'échelle mondiale. Les taux d'imposition doivent être compétitifs. La réglementation doit être favorable à l'investissement et à la création d'emplois.

Les obstacles à la croissance économique constituent une menace pour l'emploi, le niveau de vie et les perspectives qui s'offrent aux générations futures. Leur élimination constitue le premier objectif du plan.

Pour éliminer les obstacles à l'emploi, à l'investissement et à la croissance, votre gouvernement prendra les mesures suivantes :

- Il honorera son engagement de réduire les impôts.
- Il soumettra à un nouveau test d'impact sur les entreprises tous les projets de politique et de règlement susceptibles de nuire à la compétitivité et à l'emploi.
- Il ouvrira le marché de l'électricité pour mieux répondre aux besoins de la province à long terme, tout en assurant une alimentation en énergie à la fois sûre, fiable et abordable. Les monopoles ne favorisent pas les intérêts des contribuables. Les marchés ouverts et concurrentiels se caractérisent par une efficacité et une équité plus grandes, ils permettent de réduire les coûts à long terme pour les consommateurs et ils stimulent l'innovation.

D'autres mesures visant l'élimination des obstacles à l'emploi, à l'investissement et à la croissance seront annoncées le 23 avril.

Objectif 2: Rembourser la dette

Le deuxième objectif du plan est de rembourser la dette accumulée de la province. Le budget exposera les étapes suivantes.

Objectif 3: Réduire la taille du gouvernement

Le troisième objectif consiste en de nouveaux efforts pour réduire la taille et le champ d'action du gouvernement.

- Le gouvernement procédera à la vente des entreprises qu'il n'a pas à exploiter et des biens dont il ne devrait pas être propriétaire. La première d'une série de privatisations sera annoncée dans le budget.
- Les mesures législatives envisagées prévoiront des « dispositions de temporarisation » pour les nouveaux programmes.
- Le gouvernement appliquera le principe du budget base zéro aux ministères et organismes.
- Le gouvernement veillera à ce que les deniers publics destinés aux programmes visant à aider les gens ne soient pas détournés au profit de l'intervention et du lobbying.
- Le gouvernement mettra sur pied un comité ayant pour mandat de formuler des recommandations sur le rôle qu'il devrait jouer au XXI^e siècle : les fonctions qu'il devrait ou non assumer ainsi que les sphères où son action devrait ou non s'exercer.

Objectif 4: Améliorer l'efficacité du gouvernement

Le quatrième objectif vise à rationaliser l'appareil gouvernemental et à le rendre plus efficace.

Objectif 5: Améliorer le service à la clientèle et l'accessibilité par voie électronique

Le cinquième objectif consiste à améliorer le service à la clientèle et l'accessibilité par voie électronique.

Des précisions sur ces deux objectifs seront annoncées le 23 avril.

N'oublions pas, toutefois, que l'efficacité et la diversification des modes de prestation des services ne sont pas des solutions dans les secteurs où le gouvernement n'est pas à sa place. Le gouvernement devrait cesser d'exercer les fonctions qui ne lui incombent pas.

Objectif 6: Se préparer à la nouvelle économie

La préparation à la nouvelle économie constitue le sixième objectif. Votre gouvernement fera de l'Ontario la destination par excellence pour ceux qui cherchent à faire des affaires dans le cadre de l'économie numérique.

- Le gouvernement présentera des mesures législatives de nature générale afin de protéger les particuliers et de porter l'Ontario au premier rang de l'économie de l'information.
- Le gouvernement présentera, en vue de protéger les consommateurs, des lois actualisées qui feront de l'Ontario une destination de confiance pour la clientèle du commerce électronique.

Objectif 7: Promouvoir la croissance dans toutes les régions et dans tous les secteurs d'activité

Certaines régions, dont un bon nombre de collectivités rurales, n'ont pas obtenu leur juste part lors de la période récente de croissance et de prospérité. Une nouvelle approche et des idées novatrices sont donc nécessaires.

Le septième objectif du plan est de favoriser la croissance économique dans les régions rurales, le Nord et d'autres régions de l'Ontario, et aussi de stimuler la croissance des secteurs qui ont une incidence régionale importante.

Le 7 mai, le gouvernement exposera son plan détaillé en faveur du développement économique des régions.

Objectif 8: Tenir l'ensemble du secteur public responsable devant les contribuables

L'ensemble du secteur public, qui comprend tous les paliers de gouvernement, absorbe 37,7 pour 100 du produit intérieur brut de la province.

Conformément au huitième objectif de son plan, votre gouvernement lancera de vastes réformes afin d'obliger toutes les institutions du secteur public à rendre des comptes à la population de l'Ontario :

- Les modifications proposées à la *Loi sur la vérification des comptes publics* donneront au vérificateur provincial le pouvoir de s'assurer que les institutions financées par les contribuables de l'Ontario utilisent leurs fonds d'une manière prudente, efficace et conforme aux fins visées.
- De nouvelles dispositions législatives permettront l'annulation du numéro de facturation de l'Assurance-santé des fournisseurs déclarés coupables de fraude.
- Les budgets déficitaires ne sont ni viables, ni acceptables. Il est désormais interdit à votre gouvernement, aux municipalités et aux conseils scolaires d'afficher un déficit. Le budget présentera des mesures obligeant la totalité du secteur public, y compris les hôpitaux, à gérer leur budget de façon responsable.

D'autres réformes touchant la responsabilisation seront annoncées le 30 avril.

Objectif 9: Assurer une croissance intelligente

Au fur et à mesure que la population augmentera et que les industries de l'Ontario poursuivront leur essor, les pressions sur l'infrastructure continueront de s'accroître.

Assurer une croissance intelligente, c'est promouvoir et gérer la croissance de manière à favoriser la vigueur de l'économie et des collectivités, de même qu'un environnement sain.

Neuvième objectif du plan, la croissance intelligente contribuera à réduire l'engorgement du réseau routier, à encourager la revitalisation des terrains abandonnés ou contaminés et à stimuler la croissance économique.

Des détails seront annoncés le 25 avril.

Depuis 1995, le gouvernement a établi des normes provinciales pour l'ensemble du secteur public. Ces changements étaient nécessaires pour améliorer l'efficacité, la reddition de comptes et la qualité des services, mais ils ne doivent pas avoir pour effet d'intensifier la bureaucratie centrale ou d'imposer des solutions universelles.

Certes, les économies d'échelle et les normes communes de reddition de comptes favorisent l'excellence et l'efficacité; cependant, l'innovation, la concurrence, la souplesse et la liberté de choix y contribuent aussi. Toutes ces conditions doivent être présentes. Les normes provinciales ne doivent pas éliminer la responsabilité des administrations locales. Pour exercer son rôle de direction, le gouvernement provincial n'a nul besoin de microgestion ni de contrôle centralisés.

Objectif 10: Offrir souplesse et choix en matière d'éducation

Il est impossible pour le ministère de l'Éducation d'assurer la direction de 4 746 écoles et de 74 895 salles de classe. L'excellence du personnel enseignant, le leadership des directrices et directeurs d'école et l'influence des parents font toute la différence.

Le dixième objectif du plan consiste à offrir aux parents, à la direction des écoles et au personnel enseignant la souplesse et la liberté de choix qui leur permettront de faire ce qui convient le mieux pour les élèves.

- Les dispositions législatives proposées donneront plus de choix aux parents et leur permettront d'inscrire leurs enfants à n'importe quelle école de leur système.
- La Circulaire 14 donne la liste des documents d'apprentissage approuvés par le ministère; elle sera remplacée par des lignes directrices provinciales qui laisseront une marge de manoeuvre au niveau local. Par exemple, les directrices et directeurs d'école pourront choisir d'utiliser la méthode phonique pour l'enseignement de la lecture.
- On encouragera les conseils scolaires à récompenser les enseignantes et enseignants ainsi que les directrices et directeurs d'école au rendement élevé.

Objectif 11: Instaurer des normes d'enseignement élevées et une reddition de comptes axée sur le rendement

Le rôle du gouvernement doit être d'indiquer la voie à suivre et d'établir des normes. Un curriculum rigoureux, des bulletins scolaires explicites et des tests normalisés ne constituaient qu'une première étape.

Le onzième objectif de votre gouvernement est de continuer à établir des normes d'excellence pour les écoles, en mettant l'accent sur une reddition de comptes axée sur le rendement. La mesure du rendement et la présentation des résultats sont essentielles si l'on veut que les parents et les élèves disposent de l'information voulue pour faire des choix éclairés.

- Le gouvernement prendra des mesures pour veiller à ce que tous les écoliers et écolières de l'Ontario puissent profiter d'activités complémentaires.

Objectif 12: Donner à nos enfants le meilleur départ possible dans la vie

Le douzième objectif du plan consiste à aider les parents et à assurer aux enfants le meilleur départ possible dans la vie. À cet égard, le programme « Bébés en santé, enfants en santé » a jeté les bases nécessaires. Par ailleurs, le rapport Mustard-McCain a défini une conception novatrice de l'éducation de la petite enfance.

- En s'appuyant sur ces initiatives, le gouvernement établira à l'échelon local un réseau de centres de la petite enfance, qui seront accessibles à toutes les familles et à tous les enfants.

Objectif 13: Ouvrir les études postsecondaires à tous les étudiants et étudiantes admissibles

Le gouvernement continuera de veiller à ce que chaque étudiante ou étudiant ontarien admissible qui désire entreprendre des études postsecondaires obtienne une place dans un programme d'études. C'est le treizième objectif du plan.

Objectif 14: Former une main-d'oeuvre compétente

Le quatorzième objectif vise à éliminer les pénuries de main-d'oeuvre – notamment de gens de métier – pour que l'Ontario dispose de la main-d'oeuvre spécialisée nécessaire pour attirer les investissements et les emplois.

- Le gouvernement a l'intention de créer un nouvel établissement d'enseignement postsecondaire innovateur qui ferait le lien entre l'éducation et la formation professionnelle, d'une part, et les besoins du marché du travail, d'autre part. Le budget donnera des précisions à cet égard.

Les détails concernant l'engagement du gouvernement à l'égard des enfants, de l'éducation et de la formation seront annoncés le 26 avril.

Objectif 15: Jouer un rôle national de premier plan dans la réforme des services de santé

Notre gouvernement veut faire en sorte que tout le monde ait accès à des soins de qualité, à l'endroit et au moment voulus.

Il augmentera le budget de la santé pour la sixième année consécutive. Encore une fois, le taux d'augmentation des dépenses du présent exercice à ce chapitre dépassera le taux de croissance économique.

Toutefois, nous ne pouvons plus nous permettre des augmentations de plus de 10 pour 100 des dépenses annuelles pour la santé.

Sans réforme fondamentale, l'accroissement du financement ne suffira pas à résoudre la crise qui sévit à l'échelle nationale dans ce secteur.

Citons un rapport récent de la Commission on Medicare de la Saskatchewan :

« [...] ce n'est pas en consacrant encore plus d'argent à un système dont on connaît les lacunes sur le plan de l'efficacité que nous pourrions l'améliorer. [...] Consacrer encore plus d'argent à un système de santé qui fonctionne mal se traduit souvent par une réduction des affectations à l'éducation, à la création d'emplois et à l'allégement fiscal, mesures qui peuvent toutes contribuer à améliorer la santé de la population de la Saskatchewan. Par conséquent, il serait irresponsable d'affecter encore plus d'argent au système de santé sans d'abord régler les problèmes qui le minent à la base. » [Traduction]

La protection de l'assurance-maladie et le maintien d'un système de qualité

Le gouvernement de l'Ontario estime qu'il faudra procéder à une réforme fondamentale si l'on veut préserver le système de santé canadien. Notre gouvernement est prêt à jouer un rôle de premier plan dans le cadre de ce processus de changement. Il s'agit du quinzième objectif de son plan.

- Il souhaite engager une discussion ouverte, à l'échelon national, sur l'avenir du système de santé. La Commission fédérale sur l'avenir des soins de santé au Canada doit avoir les coudées franches afin de pouvoir examiner tous les aspects du système et envisager toutes les solutions possibles. Elle ne doit pas être contrainte par un mandat étroit ni par des restrictions qui nuiraient à l'ouverture de la discussion. L'Ontario souhaite participer à un dialogue dont la portée serait suffisamment étendue pour dégager des solutions réelles et durables à la crise qui menace la viabilité du système.
- Ce dialogue national devrait examiner, entre autres, la façon dont l'assurance-maladie doit être financée par les gouvernements fédéral et provinciaux, compte tenu des apports antérieurs, du principe initial de financement à parts égales de l'assurance-maladie et de l'assiette fiscale dont dispose chaque palier de gouvernement. L'objectif devrait être de parvenir à un partenariat intégral, dans le cadre duquel chaque palier de gouvernement participerait de façon réaliste et équitable aux coûts des services de santé.
- Cependant, la commission fédérale ne déposera pas son rapport avant novembre 2002. Il n'est pas question d'attendre aussi longtemps pour adopter des mesures de sauvegarde de l'assurance-maladie. De toute urgence, le gouvernement demandera à des patients, à des membres du personnel infirmier et médical, à des gestionnaires d'hôpitaux et à d'autres parties qui s'intéressent à l'avenir de notre système de santé de définir les réformes nécessaires et de dégager un consensus sur la meilleure façon d'affecter les milliards de dollars que nous consacrons chaque année à la santé.
- En outre, étant donné que l'on prévoit une augmentation considérable des coûts de la santé dans toutes les provinces, l'entente fédérale-provinciale sur le financement de l'accroissement annuel des coûts dans ce domaine ne peut attendre jusqu'en novembre 2002.

Objectif 16: Améliorer les services de santé

Parallèlement aux mesures destinées à régler la question de la viabilité, le gouvernement entend accélérer les réformes visant à améliorer la qualité du système de santé de l'Ontario; il s'agit du seizième objectif de son plan.

Des renseignements supplémentaires sur le plan du gouvernement en matière de santé seront dévoilés le 24 avril.

Objectif 17: Préserver la salubrité de l'environnement

En préservant la beauté grandiose de l'Ontario ainsi que ses abondantes richesses naturelles, votre gouvernement entend veiller à ce que les générations futures héritent d'une province propre et saine.

Le dix-septième objectif concerne la protection de la salubrité de l'environnement. À cette fin, le gouvernement s'inspirera du rapport *Gestion environnementale*.

Des détails seront annoncés le 2 mai.

Objectif 18: Aider les bénéficiaires de l'aide sociale à trouver du travail

Le 3 mai, le gouvernement annoncera les détails du dix-huitième objectif, qui vise à aider les bénéficiaires de l'aide sociale à s'affranchir du système d'aide sociale en trouvant un emploi.

Objectif 19: Améliorer la sécurité dans les collectivités et promouvoir les droits des victimes d'actes criminels

La plupart des Ontariennes et Ontariens ont la chance de vivre dans des localités sûres, où les enfants peuvent jouer en toute sécurité, où les voisins s'entraident et où les gens collaborent pour régler leurs problèmes.

Le dix-neuvième objectif du plan consiste à présenter des mesures supplémentaires afin de promouvoir les droits des victimes et de protéger nos rues et nos collectivités contre le crime.

Des détails seront dévoilés le 1^{er} mai.

Objectif 20: Assurer l'égalité des chances

L'Ontario est une province où règne la diversité. Il convient certes de s'en féliciter, d'autant plus que cette diversité présente des avantages économiques considérables.

Certains membres de notre société doivent néanmoins surmonter des obstacles particuliers, notamment les personnes qui ont un handicap physique ou mental. Le vingtième objectif du plan consiste à assurer l'égalité des chances pour tous.

- Le gouvernement cherchera un terrain d'entente et des solutions partagées afin de répondre aux besoins des personnes ayant un handicap et il appliquera des mesures en ce sens, notamment sur le plan législatif, pour concrétiser cet engagement.

Objectif 21: Favoriser la réforme parlementaire

Le XXI^e siècle exige que les processus démocratiques de l'Ontario soient modernes et souples.

Le vingt et unième objectif du plan appuie la réforme parlementaire, en particulier les modifications qui amplifieront le rôle et les responsabilités des députés.

- Le gouvernement propose qu'un plus grand nombre de questions, en particulier celles qui supposent un examen approfondi et la prise en compte des recommandations formulées, soient soumises à des comités législatifs.
- Le gouvernement estime toujours que seuls les votes sur le budget et les votes de confiance désignés constituent des questions qui engagent la confiance, et il encourage les autres parties à adopter la même règle de conduite.
- Le gouvernement veut rétablir l'importance du processus selon lequel les députés tiennent le gouvernement responsable du budget de ses dépenses, par l'examen et l'approbation de ce budget. Ainsi, il ne verra pas la réduction ou le rejet d'un poste du budget d'un ministère comme une question qui engage la confiance.
- Le gouvernement propose que le Comité permanent de l'Assemblée législative envisage d'autres réformes parlementaires visant à étoffer le rôle des simples députés et à accroître le recours à la technologie.

Conclusion:

Par les engagements qu'il prend aujourd'hui, le gouvernement ne fait que lancer son plan d'action en 21 objectifs pour le XXI^e siècle. D'autres détails seront fournis dès lundi.

L'Ontario s'étend bien au-delà de Toronto. Les activités de notre province s'organisent dans toutes les collectivités, et non seulement à Queen's Park.

La semaine prochaine, le premier ministre se rendra dans chaque région de la province. Il s'adressera aux résidentes et résidents de diverses localités, y rencontrera les leaders communautaires et fournira des précisions sur ce plan d'action propice à la croissance, financièrement judicieux et axé sur la reddition de comptes.

Mesdames et Messieurs les membres de l'Assemblée législative, concitoyennes et concitoyens,

La tâche qui s'annonce est ardue mais, si nous continuons à faire preuve de courage, de prévoyance et de détermination, l'Ontario continuera à progresser. Notre province est capable de créer l'économie la plus vigoureuse possible et d'offrir la meilleure qualité de vie qui soit en Amérique du Nord.

Que Dieu continue à bénir l'Ontario et le Canada.

Qu'Il inspire toutes les personnes qui sont au service de l'État, pour qu'elles utilisent leurs pouvoirs avec sagesse et clairvoyance.

Dieu protège la Reine.

Her Honour was then pleased to retire.

PRAYERS**PRIÈRES**

13 H 30

The Speaker addressed the House as follows:-

I beg to inform the House that on Wednesday, January 10, 2001 the Report of the Integrity Commissioner regarding the Honourable Michael D. Harris, Premier of Ontario, was tabled.

I beg to inform the House that during the adjournment, the Clerk received the Seventeenth, Eighteenth, Nineteenth, Twentieth, and Twenty-first Report of the Standing Committee on Government Agencies.

I beg to inform the House that on Wednesday, January 31, 2001 the Report of the Integrity Commissioner regarding the Honourable Michael D. Harris, Premier of Ontario, was tabled.

I beg to inform the House that on February 16, 2001 a request by the Member for Timiskaming-Cochrane, pursuant to section 30 of the *Members' Integrity Act, 1994*, to the Honourable Robert C. Rutherford, Integrity Commissioner, for an opinion on whether the Honourable Michael D. Harris, Premier of Ontario has contravened the Act or Ontario Parliamentary Convention, was tabled.

I beg to inform the House that I have today laid upon the Table a copy of an Order in Council, made pursuant to subsection 23(6) of the *Members' Integrity Act, 1994*, appointing the Honourable Gregory Evans as Acting Integrity Commissioner effective March 5, 2001 until a new Integrity Commissioner is appointed under subsection 23(2) of the *Members' Integrity Act, 1994*, and revoking, as of March 5, 2001, Order in Council number O.C. 2070/97 dated November 19, 1997.

The Speaker delivered the following ruling:-

Earlier today, the Member for Windsor-St. Clair, Mr. Duncan, provided me with written notice of a point of privilege, as required by Standing Order 21(c). I would like to thank the Member for giving me sufficient time to carefully review this matter.

I wish to advise that I will be deciding on this matter without further hearing directly from the Member at this time, as Standing Order 21(d) permits me to do.

The issue the Member raises has to do with attendance by members of the Executive at the daily oral question period.

This House has never imposed an obligation upon Members to attend all meetings of the Legislature; indeed this Assembly is constitutionally competent to carry out its business with a quorum of 12 Members. Additionally, the Speaker is not vested with the authority to compel the attendance of any Member.

As we all know, the many and varied duties of being an elected Member of this House often legitimately demand our attendance elsewhere. Honourable Members are assumed by their honourable colleagues to have valid, defensible and justifiable reasons for being absent from the House when it is meeting. This is one of the principal reasons why it is prohibited by our traditions and practices to draw the attention of the House to the absence of another Member.

This convention is observed for good reason and I will say that the tenor of the Member's written submission itself is in conflict with the spirit of this tradition.

For all of the above reasons, I find the Member has not made out a *prima facie* case of privilege.

ORDERS OF THE DAY

ORDRE DU JOUR

The Order of the Day for resuming the Adjourned Debate on the Motion for an Address in Reply to the Speech of Her Honour the Lieutenant Governor at the Opening of the Session having been read,

The debate was resumed, and after some time,

Mr. Hampton moved,

That the motion be amended by adding the following thereto:-

That the Address in Reply to the Speech of Her Honour the Lieutenant Governor at the Opening of the Session be amended by striking out all the words after "We, Her Majesty's most dutiful and loyal subjects, the Legislative Assembly of the Province of Ontario, now assembled ...", and substituting the following:-

"deplore the Tory government's intention to sell Ontario's secure public electricity provider to the highest bidder, while it squanders the education of our children and bankrupts our health care system; and

Whereas this government caters to its big business friends in the corporate, for-profit energy sector shields polluters from public scrutiny and inflicts sky-high rate hikes on vulnerable electricity consumers; and

Whereas this government has ignored its own report, abandoning school-aged children by failing to provide extra-curricular activities; and

Whereas this government allows special interest groups like the Ontario Medical Association to dictate health care policy that favours pay raises for doctors instead of ensuring province-wide access to publicly-funded health care services provided by salaried medical teams; and

Whereas this government continues to recklessly endanger the environment by slashing the Environment Ministry's staff and budget, risking the security of Ontario's water supply; and

Whereas the Conservatives condemn low-income families to living in unsafe, unhealthy over-priced housing by failing to build affordable housing and removing rent controls; and

Whereas this government forces people to work 60-hour weeks in order to keep their jobs;

Therefore this House rejects the Tories' 'accountability' agenda and demands that the government apologize to Ontarians who have suffered chaos in their schools and hospitals, inequality at their workplaces, and unsafe water and air. The House demands that the government maintain a publicly-owned electricity supply and abandon its agenda to privatize water and sewage systems. It demands that the government reform primary care, end competitive bidding practices and restore quality, publicly-funded home care services in Ontario. This government must cease its attack on the poor by ending the 60-hour work week, by raising the minimum wage immediately to \$7.50 an hour, by ending the claw back of the federal child tax benefit, and by investing in safe, affordable, licensed child care services for working families."

After some time, pursuant to Standing Order 9(a), the motion for adjournment of the debate was deemed to have been made and carried.

Après quelque temps, conformément à l'article 9(a) du Règlement, la motion d'ajournement du débat est réputée avoir été proposée et adoptée.

The House then adjourned at 6:00 p.m.

À 18 h, la chambre a ensuite ajourné ses travaux.

SIXTH DAY

JEUDI 26 AVRIL 2001

SIXIÈME JOUR

**PRAYERS
10:00 A.M.**

Mr. Hastings moved,

**PRIÈRES
10 H**

M. Hastings propose,

Second Reading of Bill 4, An Act to amend the Income Tax Act to provide a tax credit for contributions to registered education savings plans.

Deuxième lecture du projet de loi 4, Loi modifiant la Loi de l'impôt sur le revenu en vue de prévoir un crédit d'impôt pour les cotisations versées à un régime enregistré d'épargne-études.

During the debate, on a point of order being raised concerning the orderliness of the Bill with respect to Standing Order 56, the Deputy Speaker recessed the House for 5 minutes.

Upon his return, citing the following from the ruling of the Speaker of June 4, 1998,

“With respect to the orderliness of [the Bill], it does not impose a tax; indeed, it does the opposite in alleviating a tax. It does not specifically allocate public funds; its passage may cause the government to forego a certain amount of revenue, and thereby impose a burden on the Consolidated Revenue Fund, but this equates only indirectly to an expenditure. There are ample precedents fully supporting the permissibility of such a proposal.”

the Deputy Speaker found the Bill to be in order.

The debate continued and at 11:00 a.m., further proceedings were reserved until 12:00 noon.

Mr. Bartolucci then moved,

Second Reading of Bill 2, An Act respecting Accountability for Ministerial Travel.

1:30 P.M.

13 H 30

The Speaker addressed the House as follows:-

I beg to inform the House that, pursuant to Standing Order 69(b), the House Leader of the Third Party, the Member for Niagara Centre, has notified the Clerk of his intention to file notice of a reasoned amendment to the motion for Second Reading of Bill 13, An Act to resolve labour disputes affecting the Toronto District School Board and the Windsor-Essex Catholic District School Board.

The Order for Second Reading of Bill 13 may therefore not be called today.

The Speaker delivered the following ruling:-

Earlier today, the Member for Eglinton-Lawrence, Mr. Colle, provided me with written notice of a point of privilege, as required by Standing Order 21(c). I would like to thank the Member for giving me sufficient time to carefully review this matter.

I wish to advise that I will be deciding on this matter without further hearing directly from the Member at this time, as Standing Order 21(d) permits me to do.

The Member's point of privilege relates to difficulties he has encountered in attempting to obtain property assessment information for properties within his electoral district, from the Ontario Property Assessment Corporation, OPAC.

The Member alleges that OPAC's lack of cooperation in this matter has frustrated his ability to carry out his duties as an MPP and is therefore a breach of privilege.

In similar previous instances, and as recently in this House as October 16, 2000, Speakers have consistently found – supported by the procedural authorities and a multitude of precedents – that privilege attaches only to a Member's parliamentary duties, and not to subsidiary duties away from Parliament.

Citation 92 in the 6th Edition of *Beauchesne's Parliamentary Rules and Forms* states that,

“A valid claim of privilege in respect to interference with a Member must relate to the Member's parliamentary duties and not to the work the Member does in relation to that Member's constituency.”

The matter raised by the Member for Eglinton-Lawrence clearly relates to activities outside of this Chamber and are unconnected with the Member's parliamentary duties.

Therefore, I find that a *prima facie* case of privilege has not been established.

MOTIONS

On motion by Mrs. Ecker,

Ordered, That, notwithstanding Standing Order 96(d), the following changes be made to the ballot list for private members' public business:

Mrs. Dombrowsky and Mr. Smitherman exchange places in order of precedence such that Mrs. Dombrowsky assumes ballot item number 18 and Mr. Smitherman assumes ballot item number 4.

MOTIONS

Sur la motion de M^{me} Ecker,

On motion by Mrs. Ecker,

Ordered, That, notwithstanding Standing Order 96(g), the requirement for notice be waived with respect to ballot item 5 and 6.

Sur la motion de M^{me} Ecker,

The Speaker delivered the following ruling:-

On Tuesday, April 24, 2001, the Member for Timiskaming-Cochrane (Mr. Ramsay) rose on a question of privilege to indicate that his rights and privileges as a Member had been abused by the actions of the Assembly's former Integrity Commissioner, and that there had been an interference with an Officer of the Assembly within the meaning of paragraph 4 of section 46(1) of the *Legislative Assembly Act*.

In particular, the Member indicated that pursuant to the *Members' Integrity Act*, he had lodged complaints with the former Commissioner about an alleged conflict of interest involving the Premier, that the former Commissioner had investigated and dismissed the complaints, that the former Commissioner's responses to his complaints were "unusual and to some extent curious", and that a press report had subsequently quoted the former Commissioner as saying that he had relied on a friend who was not a member of his staff to assist in the writing of a report clearing the Premier of any wrongdoing.

The Member was of the view that there had been an interference while the former Commissioner was considering his complaint, that the Speaker should investigate and rule on what transpired, and that he had a right to have the Integrity Commissioner – not an outsider – decide his complaint.

The Member for Niagara-Centre (Mr. Kormos), the Government House Leader (Mrs. Ecker), and the Member for Windsor-St. Clair (Mr. Duncan) also made submissions.

I have had an opportunity to review our precedents and the usual parliamentary authorities on this matter. Let me preface my substantive response to the issues by saying that some Members would have the Speaker "investigate" the allegations. However, the role of the Speaker is not so much to investigate as it is to rule on questions of privilege raised by Members drawing salient facts to the attention of the House.

Turning to the substance of the concerns raised by the Member for Timiskaming-Cochrane, let me say two things. Firstly, an allegation that there has been an interference with an Officer of this Assembly may well raise privilege issues in a proper case. *Erskine May* states (at page 125 of the 22nd edition) that the House will treat as contempt "acts directly tending to obstruct their officers in the execution of their duty...." But for there to be a *prima facie* case, the facts drawn to the attention of the Speaker must tend to support the claims being made. Some serious allegations have been made in the case at hand, but it does not appear from various Members' submissions that the former Commissioner was interfered with in his duties; on the contrary, it appears that he actually solicited the impugned assistance.

This case should be contrasted with the case that was the subject of my May 18, 2000 ruling, where a *prima facie* case of contempt was made out in circumstances where the Information and Privacy Commissioner, in a special report to this House, indicated that a government ministry had frustrated an investigation into the release of personal financial information by the Province of Ontario Savings Office.

My second point is that addressing the issues raised in the question of privilege entails interpreting the *Members' Integrity Act*. However, Members will know from many previous rulings on this subject that Speakers should generally avoid interpreting or giving legal advice on legislation.

For these reasons, a *prima facie* case of privilege has not been made out.

In closing, I thank the Member for Timiskaming-Cochrane for raising this matter.

The Acting Speaker (Mr. Arnott) informed the House that, in the name of Her Majesty the Queen, Her Honour the Lieutenant Governor had been pleased to assent to the following bills on April 27, 2001:-

ORDERS OF THE DAY

ORDRE DU JOUR

Debate was resumed on the Amendment to the Motion for an Address in Reply to the Speech of Her Honour the Lieutenant Governor at the Opening of the Session.

Le débat reprend sur l'amendement à la motion portant l'Adresse en réponse au discours prononcé par Son Honneur la lieutenant-gouverneure à l'ouverture de la session.

After some time, the amendment to the motion as follows:-

Après quelque temps, l'amendement à la motion est comme suit:-

That the motion be amended by adding the following thereto:-

“That the Address in Reply to the Speech of Her Honour the Lieutenant Governor at the Opening of the Session be amended by striking out all the words after “We, Her Majesty’s most dutiful and loyal subjects, the Legislative Assembly of the Province of Ontario, now assembled ...”, and substituting the following:-

“deplore the Tory government’s intention to sell Ontario’s secure public electricity provider to the highest bidder, while it squanders the education of our children and bankrupts our health care system; and

Whereas this government caters to its big business friends in the corporate, for-profit energy sector shields polluters from public scrutiny and inflicts sky-high rate hikes on vulnerable electricity consumers; and

Whereas this government has ignored its own report, abandoning school-aged children by failing to provide extra-curricular activities; and

Whereas this government allows special interest groups like the Ontario Medical Association to dictate health care policy that favours pay raises for doctors instead of ensuring province-wide access to publicly-funded health care services provided by salaried medical teams; and

Whereas this government continues to recklessly endanger the environment by slashing the Environment Ministry’s staff and budget, risking the security of Ontario’s water supply; and

Whereas the Conservatives condemn low-income families to living in unsafe, unhealthy over-priced housing by failing to build affordable housing and removing rent controls; and

Whereas this government forces people to work 60-hour weeks in order to keep their jobs;

Therefore this House rejects the Tories' 'accountability' agenda and demands that the government apologize to Ontarians who have suffered chaos in their schools and hospitals, inequality at their workplaces, and unsafe water and air. The House demands that the government maintain a publicly-owned electricity supply and abandon its agenda to privatize water and sewage systems. It demands that the government reform primary care, end competitive bidding practices and restore quality, publicly-funded home care services in Ontario. This government must cease its attack on the poor by ending the 60-hour work week, by raising the minimum wage immediately to \$7.50 an hour, by ending the claw back of the federal child tax benefit, and by investing in safe, affordable, licensed child care services for working families."

having been put, the Deputy Speaker (Mr. Brown) declared his opinion that the Nays had it, and a recorded vote having been demanded,

The Deputy Speaker directed that the Members be called in, for which purpose the division bells were rung.

During the ringing of the bells, the Deputy Speaker addressed the House as follows:-

I have received a request from the Chief Government Whip, under Standing Order 28(h), that the vote be deferred until Wednesday, May 2, 2001.

Therefore the vote is accordingly deferred.

The House then adjourned at 6:00 p.m.

mis aux voix, le vice président, M. Brown déclare qu'à son avis les voix opposées l'emportent et un vote par appel nominal a été demandé.

Le vice président donne des directives pour convoquer les députés et la sonnerie d'appel se fait entendre.

Pendant la sonnerie d'appel, le vice président s'adresse à l'Assemblée en ces mots:-

J'ai reçu une requête du Whip en chef du gouvernement, conformément à l'article 28(h) du Règlement, que le vote soit différé jusqu'au mercredi 2 mai 2001.

En conséquence, le vote est différé.

ORDERS OF THE DAY

ORDRE DU JOUR

Opposition Day

Jour de l'opposition

Mr. Hampton moved,

M. Hampton propose,

Be it resolved that this House declares unequivocally that the government should abandon electricity deregulation and privatization in Ontario; and that it should set up a new system of accountable public power. The Energy Competition Act should be repealed and replaced with a Public Power Act and Ontario Power Generation's sale of 65% of its generation capacity must be permanently halted. The Ontario Energy Board should be given the power to set electricity rates and approve or veto major generation projects by the major power provider. There should also be a legislative requirement that affordable energy conservation initiatives be given priority over new generation projects; and that when new generation is built, that renewable green power be given priority.

ORDERS OF THE DAY

Debate was resumed on the Amendment to the motion that this House approves in general the Budgetary Policy of the Government.

After some time,

Mr. Martin moved:-

That the amendment moved by Mr. McGuinty to the motion moved by the Minister of Finance on May 9, "That this House approves in general the budgetary policy of the government" be amended by deleting the words after "Recognizes that this budget fails our families and our future by" and substituting the following:-

"Taking inspiration from the provincial Liberal party's policy of creating "more choice" in the school system and by using the code word "choice" as an excuse to implement a "voucher" system for private schools – jeopardizing the future of public education in Ontario;

Recognizing that this budget is driven by the Conservative government's strategic commitment to sell off Ontario through a systematic agenda of privatization, beginning with the privatization of electric power generation – with the support of the provincial Liberals;

Recognizing that the deregulation of Ontario's hydro system is a dirty deal that will create chaos in our electricity system and raise electricity prices;

Recognizing that selling out our public schools system for private vouchers and selling off hydro and the province's bank is part of a long-running and dangerous competition by the Conservative government to out-do the Ottawa Liberals' tax cuts for the wealthy;

Putting the interests of corporations ahead of the interests of working families;

Therefore, this House has lost confidence in this government."

The Speaker delivered the following ruling:-

The Member for Davenport (Mr. Ruprecht) has provided me with written notice of a point of privilege, as required by Standing Order 21(c). I would like to thank the Member for giving me sufficient time to carefully review this matter.

I wish to advise that I will be deciding on this matter without further hearing directly from the Member at this time, as Standing Order 21(d) permits me to do.

The member indicated in his notice that the Minister of Training, Colleges and Universities made an important announcement outside the House about a training course for nurses and pharmacists, and he requested that I instruct the Minister to make an appropriate statement inside the House as soon as possible so that he can better represent his constituents.

In response, the House will know that there are many precedents to the effect that the Speaker cannot compel a minister to make a ministerial statement inside the House. In addition, the matter raised by the Member relates to activities outside of this Chamber and are unconnected with the Member's parliamentary duties.

For these reasons, a *prima facie* case of privilege has not been made out. I thank the Member for his concern.

Jour de l'opposition

Mr. Conway moved,

M. Conway propose,

- Be it resolved that this House demands that the government immediately:
- Enact an "Ontario First" electricity policy that guarantees that Ontario electricity will be used to provide Ontarians with a reliable, affordable supply of power;
- Create a strong regulatory and genuinely competitive power generation environment that will produce a mix of electricity providers – public and private, large and small, and those providing green power – to assure a sufficient supply and eventually lead to lower rates;
- Stop the monopolization of the electricity retail sector by Hydro One;
- Introduce consumer protection and information programs to educate Ontarians about the changes to the province's electricity marketplace;
- Revoke Ontario Hydro's successor companies' exemption from Freedom of Information legislation; and
- Establish an all-party Select Committee to oversee Ontario's electricity policy, including the transition to a competition marketplace, the activities of Ontario Hydro's successor companies and conflicts of interest that exist as a result of the restructuring of Ontario's electricity market, including situations in which the government is in a conflict of interest and is favouring the interests of big business and other friends of the government.

HILARY M. WESTON

The Lieutenant Governor transmits Estimates of certain sums required for the services of the Province for the year ending 31st March 2002 and recommends them to the Legislative Assembly.

La lieutenant-gouverneure transmet les prévisions de certains montants nécessaires pour assurer les services de la province pour l'exercice se terminant le 31 mars 2002 et les recommande à l'Assemblée législative.

Ordered, That the message of the Lieutenant Governor together with the Estimates accompanying same be deemed to be referred to the Standing Committee on Estimates pursuant to Standing Order 58.

On a point of privilege being raised by the Member for Kingston and the Islands relating to the consideration and approval by the Board of Internal Economy of the Estimates of the Office of the Provincial Auditor, the Speaker delivered the following ruling:-

I thank the Member. What he does point out deals with notice provisions in the Audit Act for Board of Internal Economy meetings at which the Estimates of the Provincial Auditor are considered. The issue the Member raises is one of legal interpretation and it is not a matter of privilege. I would be happy to speak to the Member privately about it.

For clarification, what section 29(3) of the Audit Act says is that the Chair and the Vice-Chair "shall be" notified of such meetings of the Board of Internal Economy. I have a letter dated May 17 to both the Chair and the Vice-Chair advising you [the Chair] of this from the Auditor, copied to me. It goes on to say "...the Chair and the Vice-Chair may attend at the Board's review of my office's Estimates," the operative word being "may".

In fact, it was not a separate meeting that was held that night; it was the same Board of Internal Economy meeting that was adjourned for a vote in the House, and then came back and finished up. So there was not a new meeting, it was a continuation interrupted by a vote in the House of the same meeting, and all the Members of the Board of Internal Economy who were there will know that.

He does raise some valid points and I would certainly be pleased to meet with him and the Members of the Board to discuss the issue further. I do thank him for bringing it to my attention.

13 H 30

The Speaker delivered the following ruling:-

On Wednesday, May 30, 2001, the Member for Niagara Centre (Mr. Kormos) rose on a point of order concerning Bill 57, An Act to promote government efficiency and to improve services to taxpayers by amending or repealing certain Acts. The Member indicated that this 95-page omnibus bill amends over 50 statutes, repeals several other statutes, and affects 15 different ministries. In an impressive and well-researched submission, the Member requested that the Speaker rule the bill out of order because its contents lacked a theme of relevancy. He also requested that, in the absence of a political solution to divide the bill, the Speaker should do so. The Government House Leader (Mrs. Ecker) and the Member for Windsor-St. Clair (Mr. Duncan) also made submissions on the point of order.

I have had an opportunity to review the bill in light of the parliamentary authorities and precedents on omnibus bills. With respect to his first request, that is, that the bill be ruled out of order, the Member indicated that we have reached the "point of no return" mentioned by Speaker Lamoureux of the Canadian House of Commons in his well-known January 26, 1971 ruling, and called on the Speaker "to bring democracy back to this Legislature."

The Member conceded that some of the amendments in the bill were uncontroversial in that they were "benign and consistent with the theme of what is an acceptable omnibus bill". However, he was of the view that other amendments, such as those to the *Occupational Health and Safety Act*, were substantive and contentious.

Let me begin my response by stating the relevant criteria for determining the orderliness of an omnibus bill. As the Member himself noted, page 192 of the sixth edition of *Beauchesne* contains the following citation:

Although there is no specific set of rules or guidelines governing the content of a bill, there should be a theme of relevancy amongst the contents of a bill. They must be relevant to and subject to the umbrella which is raised by the terminology of the long title of the bill.

To this, I would add that as noted in rulings by Speakers of this House on June 10, 1997, and again on December 13, 1999,

[a] theme of relevancy is not achieved simply by virtue of what a bill's title says the bill does, or by the number of ministries a bill touches upon. A theme of relevancy is achieved when all the parts of the bill are linked in a tangible way.

To my knowledge, no Speaker in this House or any other Canadian jurisdiction has ruled a bill out of order for its failure to meet the above-mentioned criteria. Even so, I have no reservations in agreeing with the Member for Niagara Centre and with many previous rulings in this House and other authorities that, in a proper case, it is procedurally possible for a Speaker to rule a bill out of order on this ground. Nevertheless, after carefully reviewing Bill 57 in light of the criteria, I find that the bill does not cross the line: its contents, including the amendments to the *Occupational Health and Safety Act*, are tangibly linked under the umbrella of the bill's long title.

In his second request, the Member for Niagara Centre called on the Speaker to divide the bill on his own initiative in the absence of a political solution to do so. (The Member noted that a political solution had been found with respect to contentious omnibus bills in the 35th Parliament.) My response to this submission is that there is ample authority for the proposition that it is for the House -- not the Speaker -- to divide a bill. In this regard, I refer to pages 617 to 619 of Marleau and Montpetit's *House of Commons Procedure and Practice*, and to rulings in our own House on March 24, 1994, October 31, 1994, December 5, 1995, and May 14, 1996. Therefore, I cannot accede to the Member's request that the Speaker divide Bill 57.

In so ruling, I have taken careful note of the Member's submissions respecting Standing Order 1(b), which became part of our Standing Orders in 1997. This being the first time that this so-called purpose clause has been referred to in the context of an omnibus bill, let me explain what it means and what it does not mean with respect to Bill 57. Firstly, it speaks to the right of Members to submit matters to the Assembly, and to have them determined by a democratic vote; it does not prevent a procedurally acceptable omnibus bill from being introduced, debated and voted on. Secondly, it speaks to the right of Members to debate and vote on matters; therefore, if and when the government proceeds with Bill 57, there will be a debate and a vote on it as prescribed by the Standing Orders. Thirdly, it speaks to the right of Members to hold the government accountable; with respect to bills such as Bill 57, the Standing Orders flesh out how Members may do that. And finally, this purpose clause speaks to the right of the Members collectively to decide matters submitted to the Assembly; this right will be exercised if and when Bill 57 comes to a vote.

Standing Order 1(b), then, does not confer new substantive rights on Members, but is rather a statement of purpose or principle that assists in the interpretation of the other Standing Orders.

In closing, there is nothing out of order, but again I thank the Member for Niagara Centre for his impressive and well-researched submission.

The Speaker delivered the following ruling:-

On June 13, 2001, the Member for Chatham-Kent Essex raised a point of privilege concerning purported activities of the Minister of Transportation related to the possible forthcoming passage of Bill 65, An Act to permit the Minister of Transportation to delegate to persons in the private sector powers and duties and responsibilities to deliver services relating to road user programs.

The Member asserted that a draft letter -- a copy of which he provided me -- was apparently recently sent by a Regional Director in the Ministry of Transportation to some staff of the Ministry who would be affected by Bill 65 if the Bill is passed by this House. The letter describes options and decisions these staff will be required to make for themselves regarding their employment with the Ministry of Transportation, and the Member is of the view that this improperly anticipates a future legislative outcome.

The Member for Chatham-Kent Essex asserts that the issue he raises is different from ones ruled upon by Speaker Edighoffer on December 20, 1989 and by myself last November 27th, in which the validity was confirmed of plans being made in the public service to prepare for the possible passage of legislation. I respectfully beg to differ with the Member on this point. In my view this matter is identical thematically with those other times. I can in no way come to the conclusion that providing Ministry employees with advance information about their employment status, if Bill 65 passes, infringes the rights or privileges of Members of this House.

In my view the letter from the Ministry of Transportation not only does not improperly assume the outcome of this House's deliberations on Bill 65, the letter in many passages goes to some lengths to indicate how conditional these changes are upon the passage of Bill 65. As well, the template form that accompanied the letter contains blank spaces where dates will be required, clearly indicating the prospective nature of the document. These documents explicitly and thoroughly acknowledge the prior and superior role of the Legislature in this matter; such an approach has been repeatedly called for in numerous Speaker's rulings and I applaud the Ministry of Transportation for heeding those calls.

I therefore cannot agree with the Member's view that the Ministry's actions constitute a case of contempt and would further note my view that the employment relationship between the Ministry of Transportation and its civil servants is a matter of law and beyond the competence of the Speaker to address.

Pursuant to the Order of the House of May 30, 2001, the Bill is Ordered for Third Reading.

Conformément à l'ordre adopté par l'Assemblée le 30 mai 2001, ce projet de loi est ordonné pour la troisième lecture.

Mr. Gilchrist from the Standing Committee on General Government presented the Committee's report which was read as follows and adopted:-

M. Gilchrist du Comité permanent des affaires gouvernementales présente le rapport du comité qui est lu comme suit et adopté:-

Your Committee begs to report the following Bill as amended:-

Votre comité propose qu'il soit permis de faire rapport sur le projet de loi suivant avec des amendements:-

Bill 33, An Act to amend the Highway Traffic Act to prohibit persons from riding on the outside of a motor vehicle. Ordered for Third Reading.

Projet de loi 33, Loi modifiant le Code de la route pour interdire à des personnes de circuler à l'extérieur d'un véhicule automobile. Ordonné pour la troisième lecture.

The Speaker delivered the following ruling:-

On June 13, 2001, the Member for Niagara Centre (Mr. Kormos) and the Member for Elgin-Middlesex-London (Mr. Peters) rose on separate but related questions of privilege concerning the 2000 Annual Report of the Information and Privacy Commissioner, who is an Officer of the Legislature. The Commissioner's Report expressed concerns about some aspects of the government's management process on Freedom of Information requests made by journalists, special interest groups, and politicians for information on politically sensitive issues. The Member for Niagara Centre and the Member for Elgin-Middlesex-London were particularly concerned about the part of the Report that indicated that there were inappropriate delays in complying with such requests, and they gave specific examples of where they and other Members had encountered such delays.

Both Members were of the view that the Government or unnamed government officials were in contempt of the House for obstructing not only the Commissioner, but also Members of the House. The Government House Leader (Mrs. Ecker) also made submissions.

I have had an opportunity to review the Hansard for that day, the Information and Privacy Commissioner's 2000 Annual Report, the written submissions of the Member for Niagara Centre and the Member for Elgin-Middlesex-London, and the relevant authorities and precedents.

Both Members recited the general authorities on contempt in the course of their submissions, so let me proceed to apply them to the case at hand.

Dealing first with the concern that an Officer of the Legislature was being obstructed, there was no mention in the Commissioner's Report that the Commissioner was being hindered or obstructed. The Report was simply expressing serious reservations about the impact of the Government's policy, and it was requesting a change in that policy. Unlike the situation that was the occasion of my May 18, 2000 ruling respecting the Commissioner's *Special Report on Disclosure of Personal Information by the Province of Ontario Savings Office, Ministry of Finance*, this report does not specifically state, in very clear terms, that the Government was deliberately obstructing her investigation of a specific file. Indeed, at page 6 of the current report, the Commissioner indicates that,

"[w]e recognize that the Ontario Cabinet's contentious issues management process was designed so as to not interfere with the administration of access requests within the time limits specified in the *Act*."

Turning to the concern that Members were being obstructed, there can be no question that Members of this House have special rights that non-Members do not have. For example, they have entitlements under the Standing Orders -- such as being able to request information from the Government pursuant to those Standing Orders. However, when it comes to requesting information from the Government under the *Freedom of Information and Protection of Privacy Act*, Members of this House stand in the same position as non-Members. In this regard, I refer to rulings dated June 7, 1988 (at page 219 of the Journals) and October 6, 1992 (at page 2458 of Hansard).

I understand that the Member for Niagara Centre and the Member for Elgin-Middlesex-London contended that their effectiveness as Members of Provincial Parliament was being compromised by delays in receiving information that they had requested from the Government. However, it is very clear to me that the Government's management process on contentious issues did not obstruct the Members in their strictly parliamentary duties in this Chamber.

For these reasons, a *prima facie* case of contempt has not been established.

I thank the Member for Niagara Centre and the Member for Elgin-Middlesex-London for their submissions.

M. Dunlop du Comité permanent des règlements et des projets de loi d'intérêt privé présente le rapport du comité qui est lu comme suit et adopté:-

Votre comité propose qu'il soit permis de faire rapport sur les projets de loi suivants sans amendement:-

The Speaker addressed the House as follows:-

The Member for Whitby-Ajax (Honourable Mr. Flaherty) has provided me with written notice of a point of privilege, as required by Standing Order 21(c). I would like to thank the Minister for giving me sufficient time to carefully review this matter.

I wish to advise that I will be deciding on this matter without further hearing directly from the Member at this time, as Standing Order 21(d) permits me to do.

The Member's point relates to press reports concerning the vandalism that occurred last week at his Whitby constituency office, and specifically to quotes in those press reports attributed to the Leader of the Official Opposition.

I think the Minister will know, and I will now remind him and the House, that comments made outside of this place by other Members lie outside of the purview of the Speaker. The rules of debate as set out in the Standing Orders do not apply beyond proceedings in parliament and, while the Member may take strong exception to something said, this would constitute a personal disagreement but not a valid case of privilege.

Finally, I note that the Minister's written notice to me also indirectly refers to the incident itself which occurred at his office last week, and I know the Minister will be aware that this issue was raised in a point of privilege by the Member for Oak Ridges (Honourable Mr. Klees). I am currently considering that matter and will be reporting back to the House in due course.

13 H 30

I further beg to inform the House that I have today laid upon the Table the 2000-2001 Annual Report of the Ombudsman (Sessional Paper No. 67).

The Speaker delivered the following ruling:-

Yesterday, the Member for Niagara Centre (Mr. Kormos) raised a point of privilege concerning the Report of the Ombudsman on his Investigation into the Ministry of Health and Long-Term Care's Funding for Breast and Prostate Cancer Patients who must travel for Radiation Treatment.

Prior to ruling on the Member's point, I would just like to address Standing Order 21(c), which requires written notice to the Speaker of intention to raise a point of privilege. Since the introduction of this provision in the Standing Orders in 1997, the practice has developed that the written notice given in advance to the Speaker must contain a reasonably full description of the point to be raised, and how the Member relates the issue at hand to his or her privileges.

The Speaker has in the past, for instance on November 18, 1999, declined to hear a point of privilege because the written notice did not contain details about the matter to be raised. Though I did permit the Member for Niagara Centre to make his point yesterday based on a somewhat vague written notice, I want to advise now that I will not in future be as lenient and will require compliance with the letter and spirit of the Standing Order, and adherence to the developed practice of meaningfully comprehensive written notice.

Turning now to the Member's point of privilege, the Member asserted that the statement by the Ombudsman in his recent report leads to, and I quote, "only one conclusion that we can draw as a result of this, and that is that there was an effort on the government's part to conceal and certainly to inhibit access by the Ombudsman to certain information", and that "the government's obstruction -- and in this instance I submit that it is obstruction; it's the only inference that can be drawn from the words of the Ombudsman -- of the Ombudsman's information request constitutes contempt of this Legislature."

I do not share the Member's view that the result of the application by the Attorney General of his statutory authority to decline to provide certain documents to the Ombudsman in the course of his investigation represents an obstruction of an Officer of the Assembly in the performance of his duties, or a contempt of this House.

I am not of the view that the Ombudsman's statement in his Report represents either an assertion that he was willfully obstructed in the performance of his duties, or an appeal to the House to somehow come to the aid of one of its Officers. The Ombudsman is quite clear in acknowledging the legitimacy and authority of the Attorney General to withhold documents. The Ombudsman laments that this "limited the scope of [his] investigation", but he does not assert that the occurrence was maliciously obstructive.

This is substantially different from the circumstances the Speaker faced when considering a point of privilege from the Member for Renfrew-Nipissing-Pembroke (Mr. Conway) in May, 2000, concerning the Information and Privacy Commissioner's Report relating to the Province of Ontario Savings Office. In that instance an Officer of this House recounted a very specific opinion that an attempt had been made to frustrate her investigation. In ruling on this point on May 18, 2000, I had become convinced that, on the face of it, the case had indeed been made by Mr. Conway that the Commissioner was obstructed in the performance of her duties without valid or justifiable reason.

In the case at hand, I do not similarly see that lack of complete cooperation with an Officer of the House is alleged to have occurred without justification and explanation, or that it was malicious.

The Speaker cannot assign relative merit to the requests from the Ombudsman for certain documents versus the decision of the Attorney General to decline the requests. It is to be assumed the Ombudsman decided that access to the requested materials might assist him in his review of the matter. On the other side, it is likewise to be assumed that the Attorney General carefully considered the requests, but

determined that it was not in the public interest for the materials to be released. The Ombudsman acknowledges the Attorney General's authority to do so. It is obviously not for the Speaker to assess the reasonableness of a statutorily supported decision by the Attorney General to decline to provide materials to the Ombudsman.

I find that a prima facie case of contempt has not been made out.

FIFTIETH DAY**LUNDI 25 JUIN 2001****CINQUANTIÈME JOUR****PRAYERS****1:30 P.M.****PRIÈRES****13 H 30**

The Speaker delivered the following ruling:-

On Thursday, June 21, the Member for Windsor-St. Clair (Mr. Duncan) raised a point of privilege concerning the Report of the Environmental Commissioner, tabled on that day, entitled "Broken Promises: MNR's Failure to Safeguard Environmental Rights".

I have carefully reviewed the Environmental Commissioner's Report, the Member's written submission and his comments in the House, as well as the comments of the Minister of Natural Resources.

The Member for Windsor-St. Clair alleges that the Environmental Commissioner, as evidenced by what he has to say in his Report, has been impeded and obstructed in the performance of his duties and that this alleged obstruction represents a contempt of the Legislature. The Member went further in saying, and I quote, "When an officer of the Legislature such as the Environmental Commissioner is obstructed from performing his or her duty, as has been seriously alleged by that commissioner today, it is a serious breach, in our view, of our privileges as members to have access to his reports, which we, by law, must have access to."

First, let me say that, having read the Commissioner's Report, my view is he in fact does not allege that he has been obstructed in performing his duties. The Environmental Commissioner expresses a very high level of frustration with the fact that the Ministry of Natural Resources has not yet "classified its instruments" - a term that has a specific meaning within the Environmental Bill of Rights - but he does not at any point directly or indirectly assert that this Ministry has obstructed, or attempted to obstruct, the performance of his functions, or that the Ministry has in any way tried to frustrate or hinder the Environmental Commissioner from performing his statutory duties.

While the Commissioner reports findings that are critical of the Ministry, none of his statements contain, or equate to, an assertion that the Ministry has obstructed the Environmental Commissioner. Indeed, in making these findings and reporting them to the Legislature, the Environmental Commissioner has specifically fulfilled his role which the Commissioner himself indicated in his Report, and the Member for Windsor-St. Clair also noted in his submission, is to review how provincial ministries carry out the requirements of the Environmental Bill of Rights and to report to the Legislative Assembly.

Again, by my reading of all the materials before me, the Environmental Commissioner simply has not made the allegation of obstruction that the Member for Windsor-St. Clair asserts. I therefore find a *prima facie* case of contempt has not been made out.

The Speaker addressed the House as follows:-

The Member for Scarborough East (Mr. Gilchrist) has provided me with written notice of a point of privilege, as required by Standing Order 21(c). I would like to thank the Member for giving me sufficient time to carefully review this matter.

I wish to advise that I will be deciding on this matter without further hearing directly from the Member at this time, as Standing Order 21(d) permits me to do.

The Member's point of privilege concerns a press release issued by the Member for St. Paul's which advises of his intention to introduce a Bill. The Member for Scarborough East takes issue with the language of the press release, asserting that "not only does [it] imply that he has already introduced this Bill, it also implies that the bill is law and binding on the Government."

I am sure the Member will appreciate that the Speaker is not in a position to require compliance by all Members to any sort of format for press releases. On his specific points alleging that the press release prejudices the course of debate in this legislature, my reading of it leads me to the view that it is in fact suitably prospective in nature and is not offensive on that ground.

I do not find that the press release tramples upon the rights the Member enjoys in this Chamber and therefore a *prima facie* case of privilege has not been made out.

The Speaker addressed the House as follows:-

I beg to inform the House that I have today laid upon the Table the Individual Members' Expenditures for the fiscal year 2000-2001 (Sessional Paper No. 79).

The Speaker delivered the following ruling:-

On Thursday, June 14, 2001, the Chief Government Whip (Mr. Klees) rose on a point of privilege concerning security incidents that occurred on June 12 at the constituency office of the Minister of Finance, and on June 14 outside the Premier's Office in the Legislative Building. The Member for Windsor-St. Clair (Mr. Duncan), the Member for Beaches-East York (Ms. Lankin), the Government House Leader (Mrs. Ecker), and the Minister of Labour (Mr. Stockwell) also made submissions.

I have had an opportunity to review the Hansard for that day, the written submissions of the Chief Government Whip, and the relevant authorities and precedents.

Before dealing with the question of privilege, I want to first reflect on -- not reconsider -- a point of order raised by the Member for Beaches-East York and dealt with by the Acting Speaker. The Member for Beaches-East York indicated that the submissions of the Chief Government Whip reflecting on the alleged silence of Members of the Third Party about the security incidents offended Standing Order 23(h) and Standing Order 23(i). These Standing Orders require the Speaker to call a Member to order if he or she "[m]akes allegations against another member" or "[i]mputes false or unavowed motives against another member" in debate.

At the time that the Member for Beaches-East York raised her point of order, the Chief Government Whip had not specifically identified which Member or Members were the subject of his remarks. Had he done so, it would have been open to the chair to intervene and call the Member to order. In any event, looking back at the incident, I cannot emphasize enough that Members should exercise restraint in making personal allegations against another Member. Members should understand that such allegations can cause disorder, that the chair takes seriously its responsibility to maintain order and decorum in the Chamber, and that the chair will continue to be vigilant in this regard.

After the chair's ruling on the point of order raised by the Member for Beaches-East York, the Chief Government Whip resumed making oral submissions on his point of privilege. Towards the end of these submissions, he informed the House that the purpose of that part of his remarks reflecting on the alleged silence of Members of the Third Party concerning the security incidents was "to get the Third Party publicly on record" on the issue. This was an unfortunate choice of words because it detracted from the seriousness of the safety and security issue raised by the Member, and from the rationale for rising on a point of privilege. In other words, when Members rise on a point of privilege, they should do so in order to vindicate the individual privileges of all Members and the collective privileges of this House.

I also want the House to know that I take all security incidents very seriously, given the jurisdiction over security that has been reposed in the Speaker by virtue of Section 103 of the *Legislative Assembly Act*. Therefore, I want to inform the House about the following measures being taken in light of the latest incidents. Firstly, I have taken steps to enhance security in the Legislative Building. Secondly, the Sergeant-at-Arms, whose security responsibilities are primarily focused on the Legislative Precincts, will continue visiting Members' constituency offices to advise on security issues. And finally, the Speaker's all-Party advisory committee on security will review the incidents with a view to assisting me to determine what else should be done to prevent or deal with future incidents. I ask for the co-operation of all Members to ensure that their working environment is safe and secure not only for Members, but also for their staff, their clients, and their constituents.

I will now speak directly to the point raised by the Member for Etobicoke Centre (Mr. Stockwell) regarding a demonstration that occurred on June 14 in the Legislative Building in front of the Premier's Office. The Member recounted the difficulty he had that day in navigating the hallways of the Legislative Building, and the precautions that were taken to ensure he was escorted safely to those places in the Building he wished to go. In reviewing his comments, the Member did not make it clear that he was in fact prevented from getting to and from specific places in the Legislative Building, or was prevented from carrying out his parliamentary duties.

It would appear that, to the contrary, with appropriate assistance, the Minister was able to come and go safely. While I acknowledge that ideally Members should not have to encounter even the inconvenience the Member experienced, the nature of a public building that is also the seat of parliament sometimes works against that. I therefore find that he did not make out a *prima facie* case of privilege. In so finding I nevertheless reiterate my determination to ensure that all Members have confidence in the safety and security of this Building.

Returning now to the point of privilege raised by the Chief Government Whip, I wish to advise the House that, while Section 46(1) of the *Legislative Assembly Act* confers, and the Speaker claims, an absolute and unfettered right to deal with all questions of privilege, regardless of other circumstances, I have nevertheless in this case made the decision to defer my ruling until such time as charges against individuals in relation to the events at the constituency office of the Minister of Finance have been fully dealt with.

It is not typical for a matter of privilege to come before the House while either criminal or civil charges related to the very same incident, or incidents, complained of in the matter of privilege are pending. For this reason, and to fully observe the principal that the legislative and judicial branches of government ought to refrain from encroaching upon the proper jurisdiction of the other, I feel prudence requires me to set this matter aside until the judicial system has disposed of it.

Therefore, and regardless of the outcome of those matters, at the appropriate time I will rule on the point of privilege of the Member for Oak Ridges on its merits, and I thank the House for its patience in this regard.

13 H 30

The Speaker delivered the following ruling:-

On Tuesday, June 26, 2001, the Member for Windsor-St. Clair raised a point of privilege concerning recent consideration by the Board of Internal Economy of the spending Estimates of the Office of the Provincial Auditor. The Minister of Labour (Mr. Stockwell), the Member for Niagara Centre (Mr. Kormos), the Member for Thunder Bay-Atikokan (Mrs. McLeod), the Government House Leader (Mrs. Ecker), and the Member for Don Valley East (Mr. Caplan) also made submissions.

The Member refers to a letter written by the Provincial Auditor on the subject of his office's annual budget, wherein the Auditor states "[a]s a servant of the Legislative Assembly and the Public Accounts Committee, I consider the inadequate funding provided as interfering with my office's ability to fulfill its responsibilities under the *Audit Act* in a timely manner and is counterproductive to good accountability."

The Member for Windsor-St. Clair alleges that this statement amounts to a clear indication that the "Government of Ontario has perpetrated a contempt of this Legislature by impeding and obstructing an officer of this House, the Provincial Auditor."

At the outset, let me describe the system as it exists for review and approval of the Provincial Auditor's estimates. The *Legislative Assembly Act*, in Section 87, creates the Board of Internal Economy, which is a creature of this Assembly and which has membership drawn from all of the 3 Party caucuses in this House. It oversees and collectively makes decisions about the management and administration of the Legislative Assembly of Ontario.

This same Board of Internal Economy is statutorily authorized by Section 29(2) of the *Audit Act*, the governing legislation of the Provincial Auditor, to "review and may alter as it considers proper the estimates presented by the Auditor, and the chair of the Board shall cause the estimates as altered by the Board to be laid before the Assembly and the Assembly shall refer the estimates laid before it to a committee of the Assembly for review."

While the Executive is represented on the Board of Internal Economy, at no point is the legal entity of the Government of Ontario involved in this process. The Office of the Assembly and its governance structure, the Board of Internal Economy, are statutorily and factually separate and independent from the Government of Ontario. It is therefore, in effect, a practical impossibility for the Government of Ontario, having no involvement in this process, to somehow be seen to be a body that is obstructing this process.

I therefore do not find that the Government of Ontario, as alleged by the Member for Windsor-St. Clair, has, as he put it, perpetrated a contempt on this Legislature.

As for the statements of the Provincial Auditor, he is to be commended for so strenuously protecting the interests of his office and for vigorously defending and advocating for what he sees as the genuine requirements necessary to fulfill the functions for which he was appointed by this Legislature. The letter he provided on this issue, referred to by the Member for Windsor-St. Clair, cannot be described as anything but forceful.

I will, however, express reservations about its more intemperate contents and will simply reiterate that the Board of Internal Economy has, and claims, the right to determine the budget appropriation for the Office of the Provincial Auditor, subject to ultimate approval by this very Assembly. The Board of Internal Economy is seized with serving the public interest in this regard and with providing the Provincial Auditor - and all the parliamentary officers - with the tools that it determines he needs to perform his functions. The Board's valid determination in this regard is final and while issue may be taken with its decision, the Board has and asserts its right to make such decisions. Furthermore, with respect to the current case regarding the Provincial Auditor's budget submission, that decision has not yet been made by the Board.

Finally, I can only observe how circular and illogical the argument becomes that somehow this process I have described has resulted in a contempt having been perpetrated on the Assembly, since it is the Assembly itself that has created, approved, participated in, and followed this process. It is not a matter of privilege for the Board to carry out its responsibilities. The Legislature can hardly be in contempt of itself; the Assembly is master of its affairs and to the extent described here, master of its parliamentary officers, which it appoints. It is not the other way around.

Mr. Kormos moved,

M. Kormos propose,

That the Legislative Assembly of the Province of Ontario, on behalf of the people of Ontario, calls on the federal government to immediately hold a federal inquiry into the events that led to the tragic death of unarmed Aboriginal protester Dudley George, so that despite the continuing refusal of the Harris government to call a public inquiry, Ontarians may finally know the truth about what happened at Ipperwash Provincial Park on September 6, 1995.

A debate arising, at 11:00 a.m., further proceedings were reserved until 12:00 noon.

À 11 h, la suite du débat est réservée jusqu'à midi.

Mr. Marchese then moved,

Ensuite, M. Marchese propose,

That in the opinion of this House, residential rents, which in the City of Toronto cost the average tenant almost \$2,000 more this year than they did in 1997, must be reduced. The Government should therefore introduce legislation, as recommended by City of Toronto Council, to roll back rents for each rental apartment to their level in 1998 plus an annual increase equal to the rate of inflation. This rent rollback would apply to all rental units in the province to which rent regulation legislation applies.

THURSDAY, OCTOBER 4, 2001

SIXTY-SIXTH DAY**PRAYERS**

10:00 A.M.

Mrs. Pupatello moved,

That this House:

- Recognize that the Mike Harris government promised to institute "patient-based budgeting" for health care services in the 1995 Common Sense Revolution;
- Recognize that Community Care Access Centres (CCACs) across the province are reporting a funding shortfall of \$175 million due to a funding rollback by the Mike Harris government;

JEUDI 4 OCTOBRE 2001

SOIXANTE-SIXIÈME JOUR**PRIÈRES**

10 H

M^{me} Pupatello propose,

- Recognize that due to this lack of funding, CCACs have cut back on home care services affecting many sick and elderly Ontarians;
- Recognize that cutbacks to home care services are forcing patients to stay in hospital longer;
- Recognize that cutbacks to home care services are forcing patients to seek more expensive care in hospitals or long-term care facilities;
- Move immediately to lift the Mike Harris home care funding rollback in order to allow Community Care Access Centres to provide services based on patient need.

On a point of order being raised by the Member for Northumberland (Mr. Galt) concerning the orderliness of the motion with respect to Standing Order 2, the Deputy Speaker recessed the House for 5 minutes.

Upon his return, the Deputy Speaker delivered the following ruling:-

While it is possible that this motion is open to question as to its conformity to Standing Order 2, it has nevertheless remained on the Orders and Notices Paper for some time without scrutiny and I believe it would be improper to remove it in its entirety, denying the Member for Windsor West her opportunity to bring forward an item for discussion this morning.

At the same time, the Member would know that the requirement for notice was waived. The Member for Windsor West could have moved absolutely anything this morning, if it had been found to be in order; it could have been on an entirely different matter, given the fact that notice was waived.

Considering the fact that the Member's true resolution lies in the last paragraph of her notice of motion, I will permit the motion to be considered this morning.

In the meantime, the Chair will consider the matter raised by the Member for Northumberland with respect to motions that are prefaced by recitals and preambles and report back to the House.

I would also draw the Member's attention to Standing Order 2 and to remind all Members of the direction given by Mr. Speaker Stockwell on April 26, 1999 with respect to motions, and would tell Members it is the intention of the Speaker to enforce those rules in the future.

A debate arising, at 11:15 a.m., further proceedings were reserved until 12:15 p.m.

Mr. Dunlop then moved,

Second Reading of Bill 105, An Act to amend the Health Protection and Promotion Act to require the taking of blood samples to protect victims of crime, emergency service workers, good Samaritans and other persons.

The question having been put on Mrs. Pupatello's Resolution Number 14, it was lost on the following division:-

À 11 h 15, la suite du débat est réservée jusqu'à 12 h 15.

Ensuite, M. Dunlop propose,

The Speaker delivered the following ruling:-

On Monday, October 1, 2001, the member for St. Catharines (Mr. Bradley) rose on a point of privilege concerning the Annual Report of the Environmental Commissioner. According to the Member, the statements in the report about the Ministry of the Environment's management of hazardous waste issues suggested that the Ministry was in contempt of the Legislature for impeding and obstructing the Commissioner, who is an officer of this House. In particular, the Member quoted the part of the report that indicated that the Ministry had misled its clients and the Commissioner about the scope of a policy review, thereby undermining public confidence in the Ministry. The Government House Leader also made submissions on this matter.

I have had the opportunity to review the Hansard for that day, the Commissioner's annual report, the written submission of the Member for St. Catharines, and the relevant authorities and precedents.

The Member for St. Catharines referred to some of the authorities dealing with obstruction of House officers. To this, let me add that the Member will also be aware of a series of rulings delivered in June, 2001 in the wake of points of privilege that various statutory officers of this House were being obstructed by the government.

In the first ruling, on June 19, 2001, which dealt with a report by the Information and Privacy Commissioner, the Speaker ruled as follows:

...[T]here was no mention in the Commissioner's Report that the Commissioner was being hindered or obstructed. The report was simply expressing serious reservations about the impact of the government's policy, and it was requesting a change in that policy. Unlike the situation that was the occasion of my May 18, 2000, ruling respecting the Commissioner's *Special Report on Disclosure of Personal Information by the Province of Ontario Savings Office, Ministry of Finance*, this report does not specifically state, in very clear terms, that the government was deliberately obstructing her investigation of a specific file.

Secondly, on June 21, 2001, in a ruling dealing with a report by the Ombudsman, the Speaker ruled that the report did not assert that the Ombudsman was being obstructed willfully, maliciously or without valid or justifiable reason by a government ministry, or that he required the assistance of the House to perform his duties.

Thirdly, on June 25, 2001, in a ruling dealing with a report of the Environmental Commissioner, the Speaker ruled that the report simply expressed criticisms and frustrations about inaction by a government ministry; it did not allege that the ministry was obstructing, frustrating or hindering the officer in the performance of his duties, or that the ministry was attempting to do so. In reporting to the House, the Environmental Commissioner was simply fulfilling his statutory duties. As with the other two rulings, a *prima facie* case of contempt was not made out.

In the case at hand, the report of the Environmental Commissioner expresses profound concerns about an environmental issue, and it requests that those concerns be addressed, but it does not indicate that the Environmental Commissioner was being hindered or obstructed in the performance of his duties in the meaning of the rulings I have just referred to. The circumstances fall well short of what is required to establish a *prima facie* case of contempt, and I so find.

I thank the Member for St. Catharines for raising his concerns as it has afforded me an opportunity to address this important matter.

SEVENTY-SECOND DAY

LUNDI 15 OCTOBRE 2001

SOIXANTE-DOUZIÈME JOUR

PRAYERS

1:30 P.M.

PRIÈRES

13 H 30

The Speaker delivered the following ruling:-

On Thursday, October 4, the Member for Northumberland raised a point of order during Private Members' Public Business, concerning a motion moved by the Member for Windsor West. The Deputy Speaker, who was in the chair at that time, recessed the House briefly to consider the point and returned to the House and delivered a ruling in which, in the interests of fairness to the House and to the Member for Windsor West, he permitted the motion in question to proceed. I concur with the position taken by the Deputy Speaker that day, and agree it was a reasonable step which permitted the House to continue under the circumstances.

The Deputy Speaker also committed that the Speaker would return to the House to clarify the Standing Orders concerning preambles and recitals in motions, and that is what I intend to do now.

This issue was perhaps best addressed by Speaker Stockwell in April of 1999, when he wrote to all Members of the House in advance of the beginning of the 3rd Session of the 36th Parliament. In his letter of April 19, and a subsequent statement to the House on April 26, Speaker Stockwell expressed concern about the growing tendency for motions to appear on the Orders and Notices Paper which contained lengthy recitals and preambles. Speaker Stockwell drew Members' attention to the Standing Orders relevant to this issue and advised Members that from then on he would be applying them diligently and would remove out-of-order notices of motion from the Orders and Notices Paper.

Speaker Stockwell was correct, I believe, when he stated,

“Ensuring motions are not self-contained debates that precede the main debate they purport to raise is, in my view, in the interests of all members and will make the best use of the time of the House.”

Speaker Stockwell's point was that a motion should indicate some succinct, specific opinion that the House agrees to, or some specific action the House agrees should be taken. A motion should not include the arguments as to why an opinion should be adopted, or why a certain action should be taken; those arguments belong in the debate on the motion itself, when Members have the opportunity to persuade their colleagues either to accept or reject the proposition. A simple, argument-free proposal before the House gives the House the best chance to clearly decide, and maximizes the chance that the proposal, being uncluttered by extraneous and possibly irrelevant argument, will find acceptance among a larger number of Members.

Since Deputy Speaker Brown invited these on October 4, I have received written submissions on this matter from the House Leaders of all 3 Parties and I would like to thank them for providing me with their advice. All 3 are supportive of the Speaker providing a clear statement on the admissibility of notices of motion, and are desirous of seeing this policy consistently applied. The submissions of the 2 opposition House Leaders quote sections of the parliamentary authorities, *Erskine May's Parliamentary Practice* and *Beauchesne's Parliamentary Rules and Forms*, which confirm that preambles and recitals should not be contained in motions.

Therefore, having carefully considered the House Leader's written submissions and Speaker Stockwell's 1999 statement, I want to reinforce his direction on this matter and indicate my intention to pursue an identical policy. I have asked the Clerk to draw to my attention any notices of motion that may appear to be in conflict with my interpretation of the Standing Orders and, if I find that they are, I will direct that they be removed from the Orders and Notices Paper.

In that regard, I want to indicate that I am directing that Private Members' Notice of Motion number 2, standing in the name of Mr. Dunlop; Private Members' Notice of Motion number 3, standing in the name of Mr. Bryant; Private Members' Notice of Motion number 6, standing in the name of Mr. Parsons; and Private Members' Notice of Motion number 15 standing in the name of Mr. Galt, be removed from the Orders and Notices Paper today.

I want to point out that this action, as contrasted with the situation involving Mrs. Pupatello's motion last week, has no immediate detrimental impact upon either Mr. Dunlop, Mr. Bryant or Mr. Galt since neither Member has an imminent spot on the Order of Precedence for Private Members' Public Business. As a result, they can easily substitute an in-order version of their existing motions without affecting any preparations they or other Members might have done in anticipation of an approaching debate, and I encourage those Members to do so. In the case of Mr. Parsons, his Private Members' Public Business ballot item will be considered this Thursday, but he has already designated Bill 54 as his item so the removal of his notice of motion does not impact his ballot item.

I want to thank the Member for Northumberland for raising this issue as it has again given the Speaker the opportunity to clarify and provide direction in an area that has been confusing to many Members.

On a point of privilege being raised by the Member for Thunder Bay-Atikokan the Speaker delivered the following ruling:-

The Member's point of privilege concerns an email (distributed to the subscribers of the Ontario PC Daily Bulletin) announcing additional operating funds for patient services. The Member takes issue with the fact that other than the email, no official announcement was made to the public and that no information was readily available to the Member.

I am sure the Member will appreciate that the Speaker is not in a position to require compliance by all Members to any sort of format or distribution list for Government announcements.

I do not find that the email and distribution as described tramples upon the rights the Member enjoys in this Chamber and therefore a *prima facie* case of privilege has not been made out.

The Speaker delivered the following ruling:-

I have had an opportunity to consider the point of order raised and the submissions made respecting Private Members' Motion number 8 standing in the name of Mr. Guzzo. I take seriously the very good point made by the House Leader of the Official Opposition and will rule now in order to facilitate tomorrow's business of the House.

I'm sure that it will come as no surprise to the House that this motion has caused me some concern since it first appeared on the *Orders and Notices Paper*. While my attention was drawn to the motion in the first place because the Speaker figures significantly in it, there are a number of other reasons for my reservations as to its orderliness. And let me be clear on this point, the Speaker makes a decision on these matters based on procedural considerations. There are ample precedents here and elsewhere referring to the inability and indeed undesirability of a Speaker ruling on legal or constitutional issues. What is before the House today is, as the Member for St. Paul's has said, the orderliness of the motion itself and not its legality.

I also want to address the point raised by the House Leader of the Official Opposition with respect to the fact that the motion remained on the *Orders and Notices Paper* when others were recently removed. Members should be aware that the Private Members' motions recently stricken from the *Orders and Notices Paper* were stricken in response to a ruling specific to preambles and recitals. It was in that context only that the motions were reviewed. As I have said, this motion even at that time, caused me

some concern. But, in the absence of a point of order being raised, I was inclined to do as the Member for London West suggested I should do, which was to exercise discretion in favour of leaving it on until the motion was moved. However, a point of order having been now raised, I am required to render an explicit decision which necessitates closer scrutiny of the motion.

I want to start by saying a few words about the nature of Private Members' motions. As Members well know, Private Members' motions are typically framed so that if and when they carry, they constitute expressions of the opinion of the House; in other words, they are said to be non-binding. This same principle has been applied on several occasions during the time allotted to consideration of Private Member's Public Business when the Speaker has denied requests for unanimous consent to give third reading to a bill or to alter some later proceeding of the House. When Members are meeting for the purpose of considering Private Members' Business, they cannot bind the House to a final decision on a matter. Were it otherwise, a government could easily take advantage of its majority and a time-limited Private Members' debate to pass motions which could, for example, amend the Standing Orders. This is clearly not the intended purpose of Private Members' Public Business.

There are certain restrictions on the form of Private Members' motions. It is true, as the Member for St. Paul's asserts, the restrictions are limited and should be carefully applied but I believe that this motion crosses that restricted line. Let me be clear, the restrictions I speak of refer to form, not content. The motion standing in the name of Mr. Guzzo, should it carry, would bind the Speaker to a certain course of action. I would find the motion less objectionable if it was worded in such a way as to be merely an expression of opinion and not an order of the House.

This leads me to my second concern, which focuses on the terms of the motion itself, and specifically, the direction it gives to the Speaker. The Speaker's role and responsibility can be divided into three categories. First, the Speaker presides over this House and decides on procedural matters; second, the Speaker is responsible for the administration of the Office of the Assembly; and third, the Speaker has an official role as representative of the Legislative Assembly. The motion in question seeks to have the Speaker do that which is outside the traditions and boundaries which constitute the role and responsibility of the office. It is a motion that attempts to direct the Speaker to do that which is beyond the scope of his authority and for that reason it is a motion that could not be perfected.

The Member for Niagara Centre suggested that somehow the Speaker has a lesser obligation to comply with the terms of a motion than he would to a statute. I beg to differ; as Speaker, I am honour bound to respond to the directives given by this House. The Standing Orders are determined by motion of this House, they are not created by legislation, but a Speaker has no authority, nor has he a right to ignore them.

Finally, I have reservations about the part of the motion that deals with the funding for this inquiry. Members will know that Standing Order 56 prohibits Private Members from moving any motion, the passage of which would have the effect of causing a direct expenditure from the consolidated revenue fund. It is my opinion that the motion in question contravenes Standing Order 56.

The numerous concerns that I have outlined are enough collectively for me to determine without hesitation that this motion is out of order and I am directing that it be stricken from the *Orders and Notices Paper*. That said, I do note that the Member for Ottawa West-Nepean has a bill on this same subject standing in his name on the *Orders and Notices Paper* and since the notice provisions have been met he may if he so wishes move second reading of that bill during the time allotted for consideration of his ballot item tomorrow morning.

The House then adjourned at 6:20 p.m.

Your Committee begs to report the following Bill as amended:-

Bill 101, An Act to protect students from sexual abuse and to otherwise provide for the protection of students. Ordered for Third Reading.

RAPPORTS DES COMITÉS

M. Barrett du Comité permanent de la justice et des affaires sociales présente le rapport du comité qui est lu comme suit et adopté:-

Votre comité propose qu'il soit permis de faire rapport sur le projet de loi suivant avec des amendements:-

Projet de loi 101, Loi visant à protéger les élèves contre les mauvais traitements d'ordre sexuel et à prévoir autrement leur protection. Ordonné pour la troisième lecture.

INTRODUCTION OF BILLS

The following Bill was introduced, read the first time and referred to the Standing Committee on Regulations and Private Bills:-

Bill Pr3, An Act to revive 1268519 Ontario Inc. Mr. Gill.

The following Bill was introduced and read the first time:-

Bill 126, An Act to amend the Highway Traffic Act with respect to photo-radar. Mr. Hoy.

Mr. Flaherty moved, That leave be given to introduce a Bill entitled An Act to implement measures contained in the Budget and to implement other initiatives of the Government, and that it be now read the first time.

On a point of order being raised, the Speaker recessed the House for 15 minutes.

Upon his return, the Speaker delivered the following ruling:-

I have had an opportunity to review the documents presented and have quickly reviewed various precedents.

The first question to be decided is the orderliness of the bill introduced by the Minister of Finance. The bill is in proper form. It is accompanied by the required compendium and a consolidation of Acts.

DÉPÔT DES PROJETS DE LOI

Le projet de loi suivant est présenté, lu une première fois et déferé au Comité permanent des règlements et des projets de loi d'intérêt privé:-

Le projet de loi suivant est présenté et lu une première fois:-

Projet de loi 126, Loi modifiant le Code de la route à l'égard du radar photographique. M. Hoy.

M. Flaherty propose qu'il soit permis de déposer un projet de loi intitulé Loi mettant en oeuvre certaines mesures énoncées dans le budget de 2001 ainsi que d'autres initiatives du gouvernement, et que ce texte soit maintenant lu une première fois.

Whether or not it contains measures as provided in the Budget as presented in May, or not, has no bearing on the orderliness of the bill, and this is substantiated by precedent. For example, in November 1990, the Retail Sales Tax Amendment Act was introduced in the House. In December 2000, a bill similar to this one, An Act to implement the 2000 budget to establish a made-in-Ontario tax system and to amend various acts, was also introduced. The point is that these bills were subject to all of the rules that any other bills are subject to. There is an opportunity to debate at second and third reading and, if the House chooses, it may send it to Committee for hearings and debate.

As to the subsidiary issue of whether the statement we are expecting later today is really a budget, and therefore requires a budget lockup and extended debate, I can only say that a budget lockup is an external apparatus which precedes what occurs in this House. There is no procedural requirement for it. That is not controlled by the Speaker, however, let me say very clearly, it is a strongly held custom that is deeply seated in our traditions and hopefully that will continue.

As for compelling an extended debate, let me say this: a budget debate is preceded by a budget motion. It is that question - a budget motion - which is subject to debate. We have no such question before us here today. What we do have before us today is a ministerial statement restricted to 20 minutes, followed by five-minute responses from the opposition. I can find nothing out of order.

However, let me say this: what has happened today is that the trappings and proceedings have been escalated to make it appear, in some circumstances, to some people, that this would be a budget, and when you put on a "show" like that, it is very easy for people to assume that it is a budget. In the future, hopefully the Minister of Finance will take that into consideration.

I again find that there is nothing out of order.

The question then having been put on the motion by Mr. Flaherty, Bill 127, An Act to implement measures contained in the Budget and to implement other initiatives of the Government, was introduced and read the first time on the following division:-

La motion de M. Flaherty mise aux voix, le projet de loi 127, Loi mettant en oeuvre certaines mesures énoncées dans le budget de 2001 ainsi que d'autres initiatives du gouvernement, est ensuite présenté et lu une première fois à la suite du vote suivant:-

13 H 30

The Speaker delivered the following ruling:-

On Thursday, November 29, the Member for Windsor-St. Clair (Mr. Duncan) raised a point of privilege concerning a portion of the 2001 Annual Report of the Provincial Auditor.

The Member made reference to the part of the Provincial Auditor's Report relating to the Ministry of Transportation, and specifically to a recounting by the Provincial Auditor of difficulties he and his staff had encountered in receiving documents from the Ministry in the course of an audit of the Road User Safety Program.

The Member for Windsor-St. Clair quoted pertinent portions from the Provincial Auditor's 2001 Annual Report in which the Auditor recited the nature and substance of the difficulties he encountered. The Member alleged that by engaging in the conduct complained of by the Provincial Auditor, individuals employed by the Ministry of Transportation had perpetrated a contempt of the Legislative Assembly by frustrating one of its Officers in the performance of his duties.

I have now had an opportunity to read the Provincial Auditor's Report and to review the Hansard transcript of the submissions made last Thursday by the Member for Windsor-St. Clair, the Government House Leader and the Minister of Transportation on this point of privilege.

There can be no doubt that the Office of the Provincial Auditor faced obstacles in the course of its review of the Ministry of Transportation's Road User Safety Program. In Section 3.11 of the Report, the Provincial Auditor recounts a number of behaviors on the part of the Ministry that had the effect, in the Auditor's own words, of limiting his ability to fulfill his legislated audit responsibilities. This is a serious issue that must be of grave concern to all Members of the House. As I said to the Legislature on May 18, 2000 in a similar context, "in official business dealings with an officer of this House, individuals owe an obligation of accountability to parliament."

Having now referred to my ruling on May 18, 2000, which addressed a point of privilege concerning very similar issues raised by the Information and Privacy Commissioner to those raised in this case by the Provincial Auditor, I would now like to make a connection between, and comparison of, these 2 cases.

Both of these parliamentary Officers, the Information and Privacy Commissioner and the Provincial Auditor, make markedly similar claims concerning significant difficulties they encountered in discharging their respective functions, difficulties caused by the refusal of government employees to fully extend statutorily required cooperation to these Officers. As the Provincial Auditor notes in his Report, "management of the Safety and Regulation Division hindered the audit process and, despite repeated requests for access to original or supporting documentation, did not provide complete information for this audit." For her part, the Information and Privacy Commissioner similarly informed the Legislature of nearly identical obstacles in her

review of a matter concerning the Ministry of Finance.

While these Officers' Reports to this House are importantly similar, they are also, however, importantly divergent in a key respect: the Information and Privacy Commissioner was compelled to tell the House that the result of the persistent obstacles she faced was to prevent her from drawing complete conclusions about many aspects of the investigation that was the subject of her Report, and as a result, the Assembly failed to receive a full and definitive accounting from her on the matter. Most significantly, although the Commissioner strongly disputed the raising of these obstacles, the Ministry of Finance actively and persistently declined to rectify the matter. In May, 2000 the Information and Privacy Commissioner reported to the House that she was "unable to conduct a full and complete investigation". For that reason, I found then that a *prima facie* case of contempt had been made out.

In contrast, the Provincial Auditor reports that he ultimately attained the personal intervention of the current Minister of Transportation who, upon learning of the obstacles his officials were presenting, ordered their full cooperation, undertook to ensure that there would be no recurrence of the experience complained of by the Provincial Auditor, and went so far as to develop a Code of Conduct for the guidance of Ministry employees in their dealings with the Provincial Auditor. As a result, the Provincial Auditor was able to tell the House, despite all the circumstances working against him up to that point, that "(b)ased on the information we had received by the end of our audit fieldwork, we were able to reach the conclusions outlined in Section 3.11 of Chapter Three." I am persuaded that the Provincial Auditor was ultimately able to fully discharge his duties to the Legislature and cannot, therefore, find that a *prima facie* case of contempt has been established.

Clearly, this is a serious matter but one that was, if I can put it this way, happily resolved in the end. The gravity of the issue has obviously been grasped by the current Minister of Transportation who has appropriately taken full responsibility for the activities of his Ministry and its employees, and who has acted to correct the deficiency and to ensure it will not recur. The Provincial Auditor himself noted in his recent Report the "Minister's commitment to take corrective action to facilitate the work of our Office." He further stated that "(w)e are confident that the commitments conveyed to us by the new Minister and Deputy Minister will ensure that the access to information problems we encountered during this audit will not re-occur in future audits." I am hopeful that the Auditor's confidence will prove to be well-founded, that no continuing, proactive or contemptuous disregard for his role as an Officer of this House is to be found or will again surface in the Ministry of Transportation.

Members will know that I have been required to rule on several recent points raised with respect to government obstacles Officers of this House have faced. Independently, each of them, while significant, for the most part have fallen short of contempt. I do however want to say that collectively these occurrences cause me serious concern and I would caution the government that I will be expecting unfettered and willing cooperation in future with all the Officers of this House in their efforts to carry out their responsibilities.

I thank the House Leader of the Official Opposition, the Government House Leader and the Minister of Transportation for their submissions.
